Journal of Fluid Mechanics

VOLUME 610

- 1 Low-dimensional modelling of a transient cylinder wake using double proper orthogonal decomposition
S. G. Siegel, J. Seidel, C. Fagley, D. M. Luchtenburg, K. Cohen & T. McLaughlin
- 43 The effects of flow stratification by non-cohesive sediment on transport in high-energy wave-driven flows
D. C. Conley, S. Falchetti, I. P. Lohmann & M. Brocchini
- 69 Kinematics and statistics of dense, slow granular flow through vertical channels
Ananda K. S., S. Moka & P. R. Nott
- 99 The circular internal hydraulic jump
S. A. Thorpe & I. Kavčič
- 131 Constrained flow around a magnetic obstacle
E. V. Votyakov, E. Zienicke & Y. B. Kolesnikov
- 157 The acceleration of solid particles subjected to cavitation nucleation
B. M. Borkent, M. Arora, C.-D. Ohl, N. de Jong, M. Versluis, D. Lohse, K. A. Mørch, E. Klaseboer & B. C. Khoo
- 183 An analytical model for bore-driven run-up
D. Pritchard, P. A. Guard & T. E. Baldock
- 195 Vortex flow and cavitation in diesel injector nozzles
A. Andriotis, M. Gavaises & C. Arcoumanis
- 217 Beating of a circular cylinder mounted as an inverted pendulum
A. Voorhees, P. Dong, P. Atsavapranee, H. Benaroya & T. Wei
- 249 Viscoelastic effects on the dripping–jetting transition in co-flowing capillary jets
J. M. Montanero & A. M. Gañán-Calvo
- 261 On the Lamb vector divergence in Navier–Stokes flows
C. W. Hamman, J. C. Klewicki & R. M. Kirby
- 285 Long-range interaction and elastic collisions of isolated vortices
T. Radko
- 311 Destabilization of mixed Rossby gravity waves and the formation of equatorial zonal jets
B. L. Hua, M. d’Orgeville, M. D. Fruman, C. Menesguen, R. Schopp, P. Klein & H. Sasaki
- 343 Dynamics of volatile liquid droplets on heated surfaces: theory versus experiment
C. Sodtke, V. S. Ajaev & P. Stephan
- 363 Field-induced motion of ferrofluid droplets through immiscible viscous media
S. Afkhami, Y. Renardy, M. Renardy, J. S. Riffe & T. St Pierre
- 381 Bending of floating flexible legs
K. J. Park & H.-Y. Kim
- 391 Linear instability of annular Poiseuille flow
C. J. Heaton
- 407 Surfactant- and elasticity-induced inertialess instabilities in vertically vibrated liquids
B. Suman & S. Kumar
- 425 On the initial value problem in a rotating circular cylinder
K. Zhang & X. Liao
- 444 INDEX TO VOLUME 610
