## BPA

Turbomachinery International is published for key management and engineering personnel in turbomachinery using industries. Our editorial content is aimed at keeping our readers informed of all important developments in the field. We provide concepts, technical details and business developments to enable our readers to share the experiences of others as to systems, approaches and equipment that have proven valuable, and to stimulate new approaches to energy conversion. Publisher makes no guarantees or recommendations concerning any process, procedure or device described herein.

Turbomachinery International is published seven times a year (six magazine issues and one handbook) by Business Journals, Inc. Executive and Editorial offices: 50 Day Street, Norwalk, Connecticut, U.S.A. 06854. Volume 34, Number 2, Copyright © 1993 by Business Journals, Inc. Second Class postage paid in Norwalk, Connecticut and at additional mailing offices. (USPS 871-500. ISSN 0149-4147). Turbomachinery International is available on microfilm from University Microfilms International, 300 North Zeeb Road, Ann Arbor, Michigan, U.S.A. 48106. Postmaster: Please send address changes to Circulation Manager, Turbomachinery International, P.O. Box 5550, Norwalk, CT 06856-5550 U.S.A.

## Special Section: Independent Power

### Who Are the IPPs?

In many countries legislation has privatised electricity supply or opened opportunities for independent power producers to operate in parallel with the public network.

28

By Eric Jeffs

### Private Power in the United States

The independent power industry has seen the most dramatic growth in the United States, where rapidly-changing market forces and government regulations have revolutionized the energy sector.

34

By Linda Bergmann and John Bobrowich, Siemens Power Corp

### Methane in UK Power Production

Legislative, environmental and economic pressures in Europe are combining to bring forward new non-utility power generation schemes based on methane combustion.

36

By Ivor Ablitt, Peter Brotherhood Ltd

### Is it Goodbye to Bolt Heating?

An hydraulic tensioning method developed by Hydratight Pilgrim Products offers significant savings of outage time by eliminating bolt heating.

40

By Eric Jeffs

### Sulzer Lauches Electric Compressor Packages

Sulzer and ACEC Energy have developed two electric compressor packages, the main feature of which is the use of high-speed motors with magnetic bearings and dry gas seals.
