Narrow winding streets, tasteful gardens, and centuries' old structures have long made London the Capital of Quaint. But in the past few years this historic city has made a name for itself in the world of architecture and design. From the witty to the high-tech, the minimalist to the lavish, these London apartments showcase the best work of today's architects and designers.

Enge Gassen, geschmackvolle Gärten und eine Jahrhunderte alte Stadtarchitektur machen London zu einer malerischen Metropole. Hier begegnen sich Kult und Kultur. Auch Architektur und Design spielen eine herausragende Rolle. Vom Esprit zum High-Tech, vom Minimalistischen zum Üppigen: Die großartigen Leistungen heutiger Architekten und Designer werden anhand dieser Londoner Wohnsitze offensichtlich.

Rues étroites et sinueuses, édifices centenaires et délicieux jardins ont, de longue date, fait de Londres la capitale du Pittoresque. Mais ces dernières années la cité historique s'est taillée une place dans le monde de l'architecture et du design. Du spirituel au high-tech, du minimaliste au somptuaire, les appartements londoniens présentent le meilleur des architectes et designers actuels.
