

PERFUMERY

*The psychology and biology
of fragrance*

EDITED BY

Steve Van Toller and George H. Dodd

CHAPMAN & HALL

Contents

Colour plates appear between pages 144–145

Contributors	x
Preface	xii
Acknowledgements	xvi
Foreword: Abnormalities of smell E. Douek	xvii
PART I THE BIOLOGICAL UNDERPINNINGS OF SCENTS	
1 Human odour culture: a zoological perspective D. M. Stoddart	3
1.1 Introduction	3
1.2 Man: the scented ape	4
1.3 Ecological and behavioural background to the evolution of modern man	5
1.4 Incense and perfume	12
1.5 The nose and emotion	15
1.6 Conclusion	16
2 The molecular dimension in perfumery G. H. Dodd	19
2.1 Molecules and perfumes	19
2.2 Perfumery and the psychology of art	19
2.3 Perfumes and sensory processing	20
2.4 Perfumery and allied crafts	22
2.5 Perfume molecules	23
2.6 Perfume oils and aromatherapy	27
2.7 Synthetic odorants and the psychological frontiers of perfumery	30
2.8 Receptor events in perfumery	38
2.9 Conclusion	45

3	The significance of odorous steroids in axillary odour	47
	D. B. Gower, A. Nixon and A. I. Mallet	
3.1	Introduction	47
3.2	The human axilla	47
3.3	The apocrine glands	49
3.4	Composition of apocrine secretions	50
3.5	Microbiology of the axilla and its relationship to axillary odour	51
3.6	Odorous steroids present in apocrine sweat	54
3.7	Formation of odorous substances in the human axilla	60
3.8	Odour of 16-androstenes: psychology and significance	63
3.9	Sensitivity to musk odours	67
3.10	Psychological experiments using odorous steroids	68
3.11	Pheromonal aspects of odorous 16-androstenes in the pig	72
3.12	Mechanisms of perception of odorous steroids	73
3.13	Conclusion: perspectives for future studies	75
PART II DEVELOPMENTAL AND SOCIAL ASPECTS OF FRAGRANCE		
4	The acquisition of odour hedonics	79
	T. Engen	
4.1	Introduction	79
4.2	Physiological and behavioural responses of prelingual infants	80
4.3	Related animal research	83
4.4	Postlingual children	84
4.5	Children's vocabulary for hedonic properties	89
4.6	Conclusion	90
5	Perfume as a tactic of impression management in social and organizational settings	91
	R. A. Baron	
5.1	Introduction	91
5.2	The impact of perfumes on first impressions	93
5.3	The impact of perfume during employment interviews	96
5.4	The 'sweet smell of success'? Sex of applicant and interviewer and perfume as determinants of ratings in simulated interviews	96
5.5	'Too much of a good thing'? Effects of scent and non-verbal cues on evaluations of job applicants	99
5.6	General discussion	103

PART III ODOUR PERCEPTION AND THE LANGUAGE OF THE BRAIN

- 6 Contingent negative variation (CNV) and the psychological effects of odour 107
S. Torii, H. Fukuda, H. Kanemoto, R. Miyanchi, Y. Hamauzu and M. Kawasaki
- 6.1 Introduction 107
 6.2 The experiments 108
 6.3 CNV amplitudes at different sites on the scalp 110
 6.4 Effects of odours on CNV 112
 6.5 Conclusion 118
- 7 Emotion and the brain 121
S. Van Toller
- 7.1 Introduction: *Homo sapiens*, the microsomatic smeller 121
 7.2 The sense of smell 123
 7.3 Emotion 124
 7.4 The biosocial theory of emotion 127
 7.5 Emotion and olfaction 130
 7.6 Psychophysiology 132
 7.7 Brain-evoked potentials 134
 7.8 Brain electrical activity mapping 139
 7.9 Conclusion 140

PART IV FRAGRANCE THERAPIES

- 8 Anxiety reduction using fragrances 147
J. R. King
- 8.1 Introduction 147
 8.2 Stress: the vicious circle 148
 8.3 Relaxation training 149
 8.4 Problems with traditional relaxation techniques 152
 8.5 Enhanced relaxation therapy: key features 152
 8.6 Action of fragrance: a closer look 153
 8.7 Odours and disease 156
 8.8 Use of fragrance alone 157
 8.9 Construction of the fragrance 158
 8.10 Further refinements 161
 8.11 Role of fragrance in enhanced relaxation: verification 162
 8.12 Applications of enhanced relaxation therapy 164
 8.13 Wider applicability 165

9	Essential oils as psychotherapeutic agents	167
	R. Tisserand	
9.1	Historical background	167
9.2	Twentieth-century aromatherapy	169
9.3	Effects of essential oils on emotional states	175
9.4	Concepts of mood evocation with essential oils	177
9.5	Conclusion	180
 PART V THE CONSUMER AND PERFUME		
10	The psychology of fragrance selection	185
	J. Mensing and C. Beck	
10.1	Is selection of a perfume a matter of chance?	185
10.2	The subjective experience	191
10.3	The desired life-style	191
10.4	Sociobiographical data and climatic factors	192
10.5	The Colour-Rosette Test	193
10.6	Trends in perfumery from a sociological point of view	195
10.7	A few basics about trends	195
10.8	Characteristic traits of a trend	196
10.9	Life cycles of aesthetic trends	197
10.10	Change of self-perception: the main perfume trends in recent years	199
10.11	The new world of fantasy and what it offers	200
10.12	The 'fun-type'	201
10.13	Magic fantasy: the view into the past	202
11	Perfume, people, perceptions and products	205
	J. Byrne-Quinn	
11.1	Introduction	205
11.2	Smell marks people	205
11.3	Smell marks brands	207
11.4	People do differ	208
11.5	Perception differences	211
11.6	Difficulty of explaining responses to perfume	214
11.7	Conclusion	215
12	Selling perfume: a technique or an art?	217
	S. Le Norcy	
12.1	Introduction	217
12.2	Selling a perfume	218

12.3	Training a perfume sales assistant	220
12.4	The customer's attitude	223
12.5	Conclusion	225
13	Fragrance education and the psychology of smell	227
	A. Green	
13.1	Introduction	227
13.2	The Fragrance Foundation	227
13.3	Fragrance education	228
13.4	Future developments in the fragrance field	230
13.5	Conclusion	232
