<b>1</b>	<b>WHAT IS A PNEUMATIC CONVEYOR?</b>	<b>1</b>
1.1	General Description	1
1.2	Advantages	3
1.3	Disadvantages	4
1.4	Limitations	5
<b>2</b>	<b>TYPES OF PNEUMATIC CONVEYORS</b>	<b>6</b>
2.1	Vacuum System	7
2.2	Low-Pressure System	13
2.3	Medium-Pressure System	19
2.4	High-Pressure System	24
2.5	Combination Vacuum-Pressure System	26
2.6	Air-Activated Gravity Conveyor	29
2.7	Closed-Circuit System	33
		vii

<b>3 DESIGN OF PNEUMATIC CONVEYORS</b>	<b>35</b>
3.1 Criteria for Design and Use	36
3.2 Design Procedures	42
3.3 System Components	63
3.4 Automated Control	104
3.5 Flow from Bins	109
<b>4 APPLICATIONS TO INDUSTRIES</b>	<b>112</b>
4.1 Cement Industry	113
4.2 Baking Industry	118
4.3 Brewing and Distilling Industry	125
4.4 Kaolin Industry	133
4.5 Plastics Industry	134
4.6 Rubber Industry	152
4.7 Pulp and Paper Industry	155
4.8 Feed Industry	192
4.9 Water Purification	196
<b>5 HANDLING CHARACTERISTICS OF MATERIALS</b>	<b>199</b>
Bibliography	211
Index	215
