Contents

Preface xxv

Part One

Systems Analysis Fundamentals

1

Assuming the Role of the Systems Analyst 1

INFORMATION AS AN ORGANIZATIONAL RESOURCE 1

Managing Information as a Resource 1

Managing Computer-Generated Information 1

SYSTEMS ANALYSIS AND DESIGN CONCEPTS 2

Data-Processing Systems 2

Management Information Systems 3

Decisions Support Systems 3

Expert Systems and Artificial Intelligence 3

Need for Systems Analysis and Design 5

Types of Systems Users 5

ROLES OF THE SYSTEMS ANALYST 6

Systems Analysts as a Consultant 7

Systems Analyst as Supporting Expert	7
Systems Analyst as Change Agent	7
Qualities of the Systems Analyst	8
THE SYSTEMS DEVELOPMENT LIFE CYCLE	8
Identifying Problems, Opportunities, and Objectives	9
Determining Information Requirements	10
Analyzing System Needs	10
Designing the Recommended System	11
Developing and Documenting Software	11
Testing and Maintaining the System	12
Implementing and Evaluating the System	12
SUMMARY	13
KEYWORDS AND PHRASES	14
REVIEW QUESTIONS	14

2

Understanding Organizational Style and Its Impact on Information Systems 16

ORGANIZATIONAL FUNDAMENTALS	16
ORGANIZATIONS AS SYSTEMS	17
Interrelatedness and Interdependence of Systems	18
Organizational Boundaries	18
System Feedback for Planning and Control	19
Environments for Organizational Systems	20
Openness and Closedness in Organizations	20
Taking a Systems Perspective	21
Systems and the Entity-Relationship Model	24
LEVELS OF MANAGEMENT	28
Operations Management	28
Middle Management	29
Strategic Management	29
Implications for Information Systems Development	30
ORGANIZATIONAL DESIGN	33
Hierarchy	35
Project Structures	36
Matrix Structures	37
Information Processing Model	38
Implications for Information Systems Development	39
OTHER ORGANIZATIONAL FACTORS	42
Leadership Style	42
Technological Considerations	44
Organizational Culture	45
Human Relationships in Organizations	47

SUMMARY	47
KEYWORDS AND PHRASES	48
REVIEW QUESTIONS	49
PROBLEMS	49

3

Determining Feasibility and Managing Analysis and Design Activities 52

PROJECT FUNDAMENTALS	52
PROJECT INITIATION	52
Problems within the Organization	53
Opportunities for Improvement	55
Selection of Projects	55
DETERMINING FEASIBILITY	57
Defining Objectives	58
Determining Resources	58
Judging Feasibility	60
ACTIVITY PLANNING AND CONTROL	60
Estimating Time Required	62
Using Gantt Charts for Project Scheduling	64
Using PERT Diagrams	66
Expediting	73
MANAGING ANALYSIS AND DESIGN ACTIVITIES	76
Communication Strategies for Managing Teams	76
Setting Project Productivity Goals	79
Motivating Project Team Members	81
Avoiding Project Failures	82
SUMMARY	83
KEYWORDS AND PHRASES	84
REVIEW QUESTIONS	84
PROBLEMS	85

Part Two Information Requirements Analysis

4

Sampling and Investigating Hard Data 90

SAMPLING	90
The Need for Sampling	90

Sampling Design 92
The Sample Size Decision 95
KINDS OF INFORMATION SOUGHT IN INVESTIGATION 101
Types of Hard Data 103
Abstracting Data from Archival Documents 115
SUMMARY 118
KEYWORDS AND PHRASES 118
REVIEW QUESTIONS 119
PROBLEMS 120

5

Interviewing 125

KINDS OF INFORMATION SOUGHT 125
PLANNING THE INTERVIEW 126
Five Steps in Interview Preparation 127
Question Types 130
Question Pitfalls 134
Arranging Questions in a Logical Sequence 135
Structured Versus Unstructured Interviews 138
Making a Record of the Interview 140
Before the Interview 142
CONDUCTING THE ACTUAL INTERVIEW 142
Beginning the Interview 142
Troubleshooting During the Interview 143
Closing the Interview 148
WRITING THE INTERVIEW REPORT 148
SUMMARY 148
KEYWORDS AND PHRASES 151
REVIEW QUESTIONS 151
PROBLEMS 152

6

Using Questionnaires 156

KINDS OF INFORMATION SOUGHT 156
PLANNING FOR THE USE OF QUESTIONNAIRES 157
Writing Questions 158
USING SCALES IN QUESTIONNAIRES 163
Scaling Fundamentals 164
Constructing Scales 166

DESIGNING AND ADMINISTERING THE QUESTIONNAIRE	170
Designing the Questionnaire	170
Administering the Questionnaire	177
USING Q-SORTS	179
The Q-sort Technique	180
Advantages of the Q-sort Technique	180
Guidelines for Using the Q-sort Technique	182
SUMMARY	184
KEYWORDS AND PHRASES	185
REVIEW QUESTIONS	185
PROBLEMS	186

7

Observing Decision-Maker Behavior and Office Environment 190

KINDS OF INFORMATION SOUGHT	190
OBSERVING A DECISION MAKER'S BEHAVIOR	191
Observing a Typical Manager's Decision-Making Activities	192
Time and Event Sampling	192
Observing a Decision Maker's Body Language	193
Recording Behavior	196
OBSERVING THE PHYSICAL ENVIRONMENT	202
Structured Observation of the Environment	202
SUMMARY	214
KEYWORDS AND PHRASES	215
REVIEW QUESTIONS	216
PROBLEMS	216

8

Prototyping 219

KINDS OF INFORMATION SOUGHT	219
Initial User Reactions	219
User Suggestions	220
Innovations	221
Revision Plans	221
APPROACHES TO PROTOTYPING	221
Kinds of Prototypes	221

Prototyping as an Alternative to the Systems Development Life Cycle 225
Prototyping as Augmenting the Systems Development Life Cycle 227
DEVELOPING A PROTOTYPE 229
 Guidelines for Developing a Prototype 231
 Disadvantages of Prototyping 235
 Advantages of Prototyping 236
USERS' ROLES IN PROTOTYPING 238
 Interaction with the Prototype 238
SUMMARY 242
KEYWORDS AND PHRASES 243
REVIEW QUESTIONS 243
PROBLEMS 243

Part Three

The Analysis Process

9

Analyzing Data-Oriented Systems 247

METHODS AVAILABLE 247
THE DATA FLOW APPROACH TO REQUIREMENTS
 DETERMINATION 248
 Advantages of the Data Flow Approach 248
 Conventions Used in Data Flow Diagrams 249
 Other Conventions Used in the Data Flow Approach 253
 A Data Flow Diagram Example 254
 Developing Data Flow Diagrams 259
 Using Data Flow Diagrams 261
 THE DATA DICTIONARY 262
 Need for Understanding the Data Dictionary 262
 Data Contained in the Data Dictionary 262
 Building a Data Dictionary 266
 Using the Data Dictionary 274
SUMMARY 275
KEYWORDS AND PHRASES 276
REVIEW QUESTIONS 277
PROBLEMS 277

10**Analyzing Structured Decision Systems 282**

- METHODS AVAILABLE 282
- OVERVIEW OF STRUCTURED DECISIONS 282
 - Semistructured and Structured Decisions 283
 - Information Required for Structured Decisions 285
- STRUCTURED ENGLISH 288
 - Writing Structured English 289
- DECISION TABLES 292
 - Developing Decision Tables 295
 - Checking for Completeness and Accuracy 298
 - More Advanced Decision Tables 301
- DECISION TREES 303
 - Drawing Decision Trees 304
- CHOOSING A STRUCTURED DECISION-ANALYSIS TECHNIQUE 309
- SUMMARY 310
- KEYWORDS AND PHRASES 310
- REVIEW QUESTIONS 311
- PROBLEMS 311

11**Analyzing Semistructured Decision Support Systems 315**

- METHODS AVAILABLE 315
- DECISION SUPPORT SYSTEMS 316
 - Characteristics of a Decision Support System 316
 - Decision Support System Users 317
- DECISION-MAKING CONCEPTS RELEVANT TO DSS 319
 - Decision Making Under Risk 319
 - Decision-Making Style 320
 - Problem-Solving Phases 324
- SEMISTRUCTURED DECISIONS 324
 - Dimensions of Semistructured Decisions 325
 - Semi-structured Decisions in Intelligence, Design, and Choice 328
- MULTIPLE-CRITERIA DECISION MAKING 332
 - Using a Tradeoff Process 333
 - Using Weighting Methods 334

Using Sequential Elimination by Lexicography 335
Using Sequential Elimination by Conjunctive Constraints 336
Using Goal Programming 338
SUMMARY 340
KEYWORDS AND PHRASES 341
REVIEW QUESTIONS 342
PROBLEMS 343

12

Preparing the Systems Proposal 348

METHODS AVAILABLE 348
ASCERTAINING HARDWARE AND SOFTWARE NEEDS 348
 Inventorying Computer Hardware 349
 Estimating Workloads 352
 Evaluating Computer Hardware 352
 Acquisition of Computer Equipment 357
 Software Evaluation 360
IDENTIFYING AND FORECASTING COSTS AND BENEFITS 363
 Forecasting Costs and Benefits 363
 Identifying Benefits and Costs 370
COMPARING COSTS AND BENEFITS 373
 Break-even Analysis 373
 Payback 374
 Cash-Flow Analysis 376
 Present Value 377
 Guidelines for Analysis 378
 Examining Alternative Systems 379
SUMMARY 380
KEYWORDS AND PHRASES 381
REVIEW QUESTIONS 381
PROBLEMS 382

13

Writing and Presenting the Systems Proposal 387

METHODS AVAILABLE 387
THE SYSTEMS PROPOSAL 387
 Organizing the Systems Proposal 387
 Choosing a Writing Style 393

Using Figures for Effective Communication	394
Adopting a Unifying Proposal Style	407
PRESENTING THE SYSTEMS PROPOSAL	409
Understanding the Audience	410
Organizing the Systems Proposal Presentation	412
Principles of Delivery	414
SUMMARY	417
KEYWORDS AND PHRASES	418
REVIEW QUESTIONS	418
PROBLEMS	419

Part Four

The Essentials of Design

14

Designing Effective Output 421

OUTPUT DESIGN OBJECTIVES	421
Designing Output to Serve the Intended Purpose	422
Designing Output to Fit the User	422
Delivering the Appropriate Quantity of Output	423
Making Sure the Output is Where it is Needed	423
Providing the Output on Time	423
Choosing the Right Output Method	424
RELATING OUTPUT CONTENT TO OUTPUT METHOD	424
Choosing Output Technology	426
REALIZING HOW OUTPUT BIAS AFFECTS USERS	438
Recognizing Bias in the Way Output is Used	438
Avoiding Bias in the Design of Output	442
DESIGNING PRINTED OUTPUT	443
Guidelines for Printed Report Design	443
Steps in Preparing the Printer Layout Worksheet	451
DESIGNING SCREEN OUTPUT	451
Guidelines for Screen Design	452
Tabular Output for Decision Support Systems	456
Graphical Output for Decision Support Systems	458
SUMMARY	461
KEYWORDS AND PHRASES	462
REVIEW QUESTIONS	462
PROBLEMS	463

15

Designing Effective Input 468

- INPUT DESIGN OBJECTIVES 468
- GOOD FORM DESIGN 469
 - Four Guidelines for Form Design 469
 - Making Forms Easy to Fill Out 470
 - Meeting the Intended Purpose 474
 - Assuring Accurate Completion 476
 - Keeping Forms Attractive 479
 - Controlling Business Forms 480
- GOOD SCREEN DESIGN 480
 - Four Guidelines for Screen Design 480
 - Keeping the Screen Simple 481
 - Keeping the Screen Consistent 484
 - Facilitating Movement 484
 - Designing an Attractive Screen 489
 - Using Icons in Screen Design 493
 - Using Color in Screen Design 494
- SUMMARY 498
- KEYWORDS AND PHRASES 499
- REVIEW QUESTIONS 499
- PROBLEMS 500

16

Designing the User Interface 504

- USER INTERFACE OBJECTIVES 504
- TYPES OF USER INTERFACE 504
 - Natural-Language Interfaces 504
 - Question-and-Answer Interfaces 506
 - Menus 509
 - Input/Output Forms 513
 - Command-Language Interfaces 515
 - Direct Manipulation Interfaces 517
 - The Mouse 519
 - Other User Interfaces 520
- FEEDBACK FOR USERS 522
- PRODUCTIVITY AND ERGONOMICS DESIGN 528
 - Computer Room Color and Lighting 528
 - Visual Display Terminals and Keyboards 529

Computer Furniture	531
SUMMARY	531
KEYWORDS AND PHRASES	532
REVIEW QUESTIONS	532
PROBLEMS	533

17

Designing Accurate Data-Entry Procedures 535

DATA-ENTRY OBJECTIVES	535
EFFECTIVE CODING	535
Keeping Track of Something	537
Classifying Information	538
Concealing Information	541
Revealing Information	542
Requesting Appropriate Action	544
General Guidelines for Coding	544
EFFECTIVE AND EFFICIENT DATA CAPTURE	550
Deciding What to Capture	550
Letting the Computer Do the Rest	551
Avoiding Bottlenecks and Extra Steps	552
Starting with a Good Form	554
Choosing a Data-Entry Method	554
ASSURING DATA QUALITY THROUGH INPUT VALIDATION	560
Validating Input Transactions	561
Validating Input Data	561
SUMMARY	566
KEYWORDS AND PHRASES	568
REVIEW QUESTIONS	569
PROBLEMS	569

18

Designing the File or Database 574

DESIGN OBJECTIVES	574
CONVENTIONAL FILES AND DATABASES	574
Conventional Files	575
Databases	578
DATA CONCEPTS	579
Reality, Data, and Metadata	579

File Organization 586
Database Organization 593
NORMALIZATION 598
The Three Steps to Normalization 599
A Normalization Example 600
MAKING USE OF THE DATABASE 612
Query Types 612
Steps in Retrieving and Presenting Data 624
SUMMARY 633
KEYWORDS AND PHRASES 634
REVIEW QUESTIONS 635
PROBLEMS 636

Part Five

Software Engineering and Implementation

19

Quality Assurance Through Software Engineering 638

QUALITY ASSURANCE APPROACHES 638
THE TOTAL QUALITY ASSURANCE APPROACH 639
Responsibility for Total Quality Assurance 640
Structured Walkthrough 642
Systems Design and Development 644
Structure Charts 648
SOFTWARE ENGINEERING AND DOCUMENTATION 655
Design and Documentation Techniques 656
The HIPO Method 657
Flowcharts 663
Nassi-Schneiderman Charts 666
Warnier-Orr Diagrams 669
Pseudocode 672
Procedure Manuals 673
The FOKELORE Method 674
Choosing a Design and Documentation Technique 676
TESTING, MAINTENANCE, AND AUDITING 677
The Testing Process 677

Maintenance Practices	681
Auditing	683
SUMMARY	684
KEYWORDS AND PHRASES	685
REVIEW QUESTIONS	685
PROBLEMS	686

20

Successfully Implementing the Information System 690

IMPLEMENTATION AND APPROACHES	690
ESTABLISHING AN INFORMATION CENTER	691
A New Role for the Information Systems Department	691
Information Center Practices	694
Implementing Distributed Systems	697
TRAINING USERS	704
Training Strategies	704
Guidelines for Training	706
CONVERSION	709
Conversion Strategies	709
Security	712
Other Conversion Considerations	714
EVALUATION	715
Evaluation Techniques	715
The Information System Utility Approach	715
Evaluating the System	717
SUMMARY	720
KEYWORDS AND PHRASES	721
REVIEW QUESTIONS	721
PROBLEMS	722

21

Adopting Workbench Technologies 725

APPROACHES FOR USING WORKBENCH TECHNOLOGIES	725
Increasing Analyst Productivity	726
Improving Analyst-User Communication	727
Integrating Life-Cycle Activities	729

ADVANTAGES AND DISADVANTAGES OF WORKBENCH
TECHNOLOGIES 730
 Advantages of Workbench Technologies 731
 Disadvantages of Using Workbench Technologies 733
AN INTRODUCTION TO WORKBENCH TECHNOLOGIES 736
 One Popular Software Engineering Tool—Excelerator 736
 An Overview of Excelerator 736
 An Excelerator Example 739
 Life-Cycle Productivity System 748
SUMMARY 750
KEYWORDS AND PHRASES 751
REVIEW QUESTIONS 751
PROBLEMS 752

Index 753
