<b>Preface</b>	<b>vii</b>
Introduction . . . . .	vii
Who this book is for . . . . .	vii
What this book covers . . . . .	vii
To get the most out of this book . . . . .	viii
Download Jupyter notebook examples . . . . .	viii
Conventions used . . . . .	viii
Get in touch . . . . .	ix
Acknowledgments . . . . .	ix
<b>1 Introducing Earth Engine and Geemap</b>	<b>1</b>
1.1 Introduction . . . . .	1
1.2 What is Geospatial Data Science . . . . .	1
1.3 What is Google Earth Engine . . . . .	2
1.4 What is geemap . . . . .	3
1.5 Installing geemap . . . . .	4
1.6 Creating a Jupyter notebook . . . . .	8
1.7 Earth Engine authentication . . . . .	9
1.8 Using Google Colab . . . . .	12
1.9 Using geemap with a VPN . . . . .	12
1.10 Key features of geemap . . . . .	14
1.11 Summary . . . . .	14
<b>2 Creating Interactive Maps</b>	<b>15</b>
2.1 Introduction . . . . .	15
2.2 Technical requirements . . . . .	15
2.3 Plotting backends . . . . .	16
2.4 Adding basemaps . . . . .	21
2.5 Summary . . . . .	27
<b>3 Using Earth Engine Data</b>	<b>29</b>
3.1 Introduction . . . . .	29
3.2 Technical requirements . . . . .	29
3.3 Earth Engine data types . . . . .	30
3.4 Earth Engine Data Catalog . . . . .	54
3.5 Getting image metadata . . . . .	58
3.6 Calculating descriptive statistics . . . . .	62
3.7 Using the inspector tool . . . . .	63
3.8 Converting JavaScript to Python . . . . .	64
3.9 Calling JavaScript functions from Python . . . . .	69
3.10 Summary . . . . .	73
<b>4 Using Local Geospatial Data</b>	<b>75</b>
4.1 Introduction . . . . .	75
4.2 Technical requirements . . . . .	75
4.3 Local raster datasets . . . . .	76
4.4 Cloud Optimized GeoTIFF (COG) . . . . .	80
4.5 SpatioTemporal Asset Catalog (STAC) . . . . .	85
4.6 Vector datasets . . . . .	87

4.7	Creating points from XY . . . . .	94
4.8	Vector data to Earth Engine . . . . .	97
4.9	Joining attribute tables . . . . .	98
4.10	Converting NetCDF to ee.Image . . . . .	100
4.11	OpenStreetMap data . . . . .	101
4.12	Reading PostGIS data . . . . .	107
4.13	Summary . . . . .	108
<b>5</b>	<b>Visualizing Geospatial Data</b>	<b>111</b>
5.1	Introduction . . . . .	111
5.2	Technical requirements . . . . .	111
5.3	Using the plotting tool . . . . .	112
5.4	Changing layer opacity . . . . .	113
5.5	Visualizing raster data . . . . .	115
5.6	Visualizing vector data . . . . .	117
5.7	Creating legends . . . . .	120
5.8	Creating color bars . . . . .	124
5.9	Displaying labels . . . . .	127
5.10	Image overlay . . . . .	129
5.11	Video overlay . . . . .	130
5.12	Split-panel maps . . . . .	131
5.13	Linked maps . . . . .	132
5.14	Timeseries inspector . . . . .	134
5.15	Time slider . . . . .	136
5.16	Shaded relief maps . . . . .	139
5.17	Elevation contours . . . . .	140
5.18	Visualizing NetCDF data . . . . .	141
5.19	Visualizing LiDAR data . . . . .	144
5.20	Visualizing raster data in 3D . . . . .	146
5.21	Creating choropleth maps . . . . .	147
5.22	Summary . . . . .	152
<b>6</b>	<b>Analyzing Geospatial Data</b>	<b>153</b>
6.1	Introduction . . . . .	153
6.2	Technical requirements . . . . .	153
6.3	Earth Engine data reductions . . . . .	154
6.4	Image descriptive statistics . . . . .	158
6.5	Zonal statistics with Earth Engine . . . . .	160
6.6	Coordinate grids and fishnets . . . . .	165
6.7	Extracting pixel values . . . . .	169
6.8	Mapping available image count . . . . .	174
6.9	Cloud-free composites . . . . .	175
6.10	Quality mosaicking . . . . .	178
6.11	Interactive charts . . . . .	182
6.12	Unsupervised classification . . . . .	190
6.13	Supervised classification . . . . .	193
6.14	Accuracy assessment . . . . .	198
6.15	Using locally trained machine learning models . . . . .	201
6.16	Sankey diagrams . . . . .	205
6.17	Summary . . . . .	207
<b>7</b>	<b>Exporting Earth Engine Data</b>	<b>209</b>
7.1	Introduction . . . . .	209
7.2	Technical requirements . . . . .	209

7.3	Exporting images . . . . .	210
7.4	Exporting image collections . . . . .	215
7.5	Exporting videos . . . . .	216
7.6	Exporting image thumbnails . . . . .	217
7.7	Exporting feature collections . . . . .	218
7.8	Exporting maps . . . . .	221
7.9	Using the high-volume endpoint . . . . .	221
7.10	Summary . . . . .	225
<b>8</b>	<b>Making Maps with Cartoee</b>	<b>227</b>
8.1	Introduction . . . . .	227
8.2	Technical requirements . . . . .	227
8.3	Plotting single-band images . . . . .	228
8.4	Plotting multi-band images . . . . .	229
8.5	Adding north arrows and scale bars . . . . .	230
8.6	Adding legends . . . . .	233
8.7	Adding basemaps . . . . .	235
8.8	Using custom projections . . . . .	237
8.9	Plotting multiple Earth Engine layers . . . . .	245
8.10	Creating timelapse animations . . . . .	248
8.11	Summary . . . . .	251
<b>9</b>	<b>Creating Timelapse Animations</b>	<b>253</b>
9.1	Introduction . . . . .	253
9.2	Technical requirements . . . . .	253
9.3	The map function . . . . .	254
9.4	Creating cloud-free composites . . . . .	255
9.5	Creating time series . . . . .	256
9.6	NAIP timelapse . . . . .	257
9.7	Landsat timelapse . . . . .	259
9.8	Sentinel-1 timelapse . . . . .	262
9.9	Sentinel-2 timelapse . . . . .	264
9.10	MODIS timelapse . . . . .	265
9.11	GOES timelapse . . . . .	268
9.12	Fading effects . . . . .	271
9.13	Adding text to timelapse . . . . .	273
9.14	Adding image and colorbar to timelapse . . . . .	274
9.15	Summary . . . . .	277
<b>10</b>	<b>Building Interactive Web Apps</b>	<b>279</b>
10.1	Introduction . . . . .	279
10.2	Technical requirements . . . . .	279
10.3	Building JavaScript web apps . . . . .	281
10.4	Publishing JavaScript web apps . . . . .	285
10.5	Building Python Web Apps . . . . .	286
10.6	Using Voila to deploy web apps . . . . .	289
10.7	Building Streamlit web apps . . . . .	291
10.8	Building Solara web apps . . . . .	297
10.9	Deploying web apps on Hugging Face . . . . .	299
10.10	Summary . . . . .	301
<b>11</b>	<b>Earth Engine Applications</b>	<b>303</b>
11.1	Introduction . . . . .	303
11.2	Technical requirements . . . . .	303
11.3	Analyzing surface water dynamics . . . . .	304

11.4	Mapping flood extents . . . . .	309
11.5	Forest cover change analysis . . . . .	320
11.6	Global land cover mapping . . . . .	326
11.7	Concluding remarks . . . . .	334
	<b>Books from Locate Press</b>	<b>337</b>
