Authored and Edited by 3G E-learning LLC, USA

ISBN: 978-1-98469-552-9

This book contains information obtained from highly regarded resources. A wide variety of references are listed. Reasonable efforts have been made to publish reliable data and information, but the authors, editors, and the publisher cannot assume responsibility for the legality of all materials or the consequences of their use. The authors, editors, and the publisher have attempted to trace the copyright holders of all material in this publication and express regret to copyright holders if permission to publish has not been obtained. If any copyright material has not been acknowledged, let us know so we may rectify in any future reprint.

Notice: Registered trademark of products or corporate names are used only for explanation and identification without intent of infringement. Case Studies and/or Images presented in the book are the proprietary information of the respective organizations, and have been used here specifically and only for educational purposes. Although care has been taken to check accuracy of formulas and procedures, the detailed methods should be tested further on a small scale before being adopted commercially.

TABLE OF CONTENTS

<i>Glossary</i>	<i>xiii</i>
<i>Preface</i>	<i>xvii</i>

Chapter 1 Introduction to Building and Remodeling **1**

Introduction.....	1
1.1 Overview of the Construction and Remodeling Industry.....	2
1.1.1 Building Construction Process.....	3
1.1.2 Construction Materials.....	4
1.1.3 Tools and Techniques in Building Construction.....	5
1.2 Types of Construction Projects.....	6
1.2.1 Residential Buildings.....	7
1.2.2 Commercial, and Industrial.....	11
1.2.3 Infrastructure Construction Projects.....	13
1.3 Key Stakeholders: Architects, Contractors, and Clients.....	14
1.3.1 Architects: The Visionaries and Designers.....	17
1.3.2 Contractors: The Builders and Implementers.....	18
1.3.3 Clients: The Visionaries and Beneficiaries.....	20
1.3.4 The Dynamics of Collaboration.....	21
1.4 Phases of a Construction or Remodeling Project.....	22
1.4.1. Pre-Construction Phase.....	22
1.4.2. Design Phase.....	23
1.4.3. Procurement Phase.....	24
1.4.4. Construction Phase.....	25
1.4.5. Post-Construction Phase.....	26
Summary.....	29

Chapter 2 Planning and Design

31

Introduction	31
2.1 Basics of Building Planning.....	32
2.1.1 Requirements of Good Buildings.....	33
2.1.2 General Principles of Planning.....	34
2.1.3 Orientation of Buildings.....	37
2.1.4 Factors Affecting Orientation	37
2.1.5 Housing Layouts of Flats and Apartments	38
2.1.6 Office Building.....	40
2.1.7 Industrial Housing.....	43
2.2 Architectural Drawing.....	44
2.2.1 Types of Architecture Drawings:	45
2.3 Planning of One Room Dwellings.....	49
2.3.1 Planning of Two-Room Dwellings.....	49
2.3.2 Planning of Three-Room Dwellings	50
2.4 Zoning Laws.....	53
2.4.1 Types of Zoning Restrictions	54
2.5 Building Codes.....	55
2.5.1 Purpose of Building Codes	56
2.5.2 Key Components of Building Codes	56
2.5.3 Types of Building Codes	56
2.5.4 Adoption and Enforcement	57
2.5.5 Challenges in Understanding Building Codes	57
2.6 Budgeting and Cost Estimation.....	57
Summary.....	64

Chapter 3 Materials and Tools

67

Introduction.....	67
3.1 Common Materials Used in Construction And Remodeling.....	68
3.1.1 Concrete.....	68
3.1.2 Steel	69
3.1.3 Wood	70

3.1.4 Stone	71
3.1.5 Brick / Masonry	72
3.1.6 Other Construction Materials.....	73
3.1.7 The Importance of Selecting the Correct Materials.....	74
3.2 Innovations in Building Materials.....	75
3.2.1 Green and Sustainable Materials	75
3.2.2 High-Performance and Smart Materials	75
3.2.3 Innovative Structural Materials.....	76
3.2.4 Digital and 3D-Printed Materials.....	77
3.2.5 Insulation and Energy-Efficient Materials.....	77
3.2.6 Resilient and Disaster-Resistant Materials	78
3.2.7 Nanotechnology in Building Materials.....	78
3.2.8 Circular Economy and Cradle-to-Cradle Materials	79
3.3 Tools and Equipment For Construction and Remodeling.....	79
3.3.1 Measuring Tools	79
3.3.2 Cutting Tools.....	80
3.3.3 A Power Drill.....	81
3.3.4 Hammers	81
3.3.5 Screwdrivers	82
3.3.6 Safety Equipment	82
3.3.7 Pliers.....	82
3.3.8 Wrenches	83
3.3.9 Nail guns	83
3.3.10 A Reciprocating Saw	84
3.3.11 A Circular Saw	85
3.3.12 A Rotary Tool	85
3.4 Evaluating The Quality and Cost-Effectiveness of Materials.....	86
3.4.1 Importance of Selecting High-Quality Construction Materials:.....	87
3.4.2 Factors to Consider when Evaluating Construction Materials.....	88
3.4.3 Testing Methods for Construction Materials	88
3.4.4 Ensuring Quality in Building Materials.....	90
3.4.5 Factors to be considered for Building Materials Selection	90
3.4.6 Cost Efficiency in Construction.....	94
Summary.....	101

References	102

Chapter 4 Foundations and Structural Integrity

103

Introduction.....	103
4.1 Building Foundations.....	105
4.1.1 Purpose of The Foundation	105
4.1.2 Functions of Foundation In Construction	106
4.1.3 Requirements of a Good Foundation	106
4.2 Site Investigations.....	107
4.2.1 Trial Pits and Borings.....	108
4.2.2 Field Tests	109
4.2.3 Bearing Capacity of Soil	110
4.3 Settlement of Foundations.....	111
4.3.1 Depth of Foundation.....	112
4.3.2 Excavation For Foundation.....	113
4.4 Selection of Foundation	115
4.5 Types Of Foundation.....	115
4.5.1 Shallow Foundations	115
4.5.2 Deep Foundations	119
4.6 Structural Integrity	125
4.6.1 Material Selection	126
4.6.2 Testing.....	127
4.6.3 Main Causes of Structural Failure	128
4.6.4 How to Ensure Structural Integrity?	129
4.6.5 How Can You Analyze the Structural Integrity of a Building?	129
4.6.6 Structural Component Integrity Considerations in Construction	131
4.6.7 How Does Structural Engineering Subside the Chances of Catastrophic Failure?.....	132
Summary.....	137

References	138

Chapter 5 Walls, Floors, and Roofs

139

Introduction.....	139
5.1 Advanced Framing and Wall Construction Techniques	140
5.1.1 Components of Advanced Framing	141
5.1.2 Advantages of Advanced Framing	141
5.1.3 Incorporating Advanced Framing Techniques	144

5.1.4 Single Top Plates.....	150
5.1.5 Wall Sheathing.....	151
5.2 Flooring Options for Building.....	152
5.3 Roofing Materials and Installation Methods.....	153
5.3.1 Roof Installation: A Step-by-Step Process.....	160
Summary.....	165
Learn More Online.....	166
References.....	166

Chapter 6 Plumbing, Electrical, and HVAC Systems **169**

Introduction.....	169
6.1 Plumbing System.....	170
6.1.1 Types of Plumbing Systems.....	170
6.1.2 Stages of Plumbing Installation.....	173
6.1.3 Maintaining Plumbing System.....	175
6.2 Electrical Wiring.....	179
6.2.1 Cables.....	180
6.2.2 Different Types of Electrical Wiring Systems.....	183
6.2.3 Electrical Preventive Maintenance.....	188
6.3 Hvac System Integration: A Comprehensive Guide For Service Excellence.....	191
6.3.1 Hvac System Integration.....	192
6.3.2 Key Benefits Of Integration.....	193
6.3.3 Achieving Integration Excellence.....	197
Summary.....	209
Learn More Online.....	210
References.....	210

Chapter 7 Interior Finishes **213**

Introduction.....	213
7.1 Interior Finish Definition.....	214
7.2 Drywall Installation and Finishing Techniques.....	214
7.2.1 Benefits of Drywall Finishing.....	215
7.2.2 Tools You Need to Finish Drywall.....	215
7.2.3 Preparing the Work Area to Finish Drywall.....	216
7.2.4 The Five Levels of Drywall Finishing.....	217
7.2.5 Step-By-Step Guide To Finishing Drywall.....	217
7.2.6 Drywall Sanding Techniques for Smooth Walls.....	220

7.2.7 Applying Second and Third Coats to Drywall	221
7.2.8 Finishing Drywall Inside and Outside Corners.....	222
7.2.9 Tips for Achieving a Professional-Quality Drywall Finish	223
7.2.10 Priming and Painting Finished Drywall	224
7.2.11 Troubleshooting Drywall Finishing Issues.....	224
7.3 Painting, Tiling, and Flooring Finishes.....	225
7.3.1 Interior Design Painting Techniques & Finishes.....	225
7.3.2 Interior Design Floor Coverings	229
7.3.3 Interior Design Fabrics & Fibres	231
7.4 Cabinetry and Built-in Features	235
7.4.1 The Importance of Cabinet Designs	236
7.4.2 Material Selection for Cabinet Designs	236
7.4.3 Color Schemes in Cabinets Designs	238
7.4.4 Built-in Cabinet Options	239
7.4.5 Customization Options in Cabinet Designs	242
7.4.6 Techniques for Creating Functional Cabinet Designs.....	243
7.4.7 Tips for Choosing the Right Cabinet Designs.....	244
7.5 Innovations in Interior Design for Remodeled Spaces.....	244
7.5.1 Install a Marble Countertop.....	245
7.5.2 Consider Adding Marble Flooring	245
7.5.3 Fix the Lighting.....	245
7.5.4 Make Your Room Spacious with Baseboard Drawers	246
7.5.5 Pay Attention to Colour Combinations.....	246
7.5.6 Don't Leave the Exterior.....	246
Summary.....	254
Learn More Online	255

Chapter 8 Project Management and Safety

257

Introduction.....	257
8.1 Overview of Construction Management System.....	258
8.1.1 Need for Project Management.....	260
8.1.2 Project Management Characteristics	260
8.1.3 Time and Cost Management.....	261
8.1.4 CPM Procedure	262
8.1.5 Time Monitoring and Control	263
8.1.6 Management Procedures	264
8.1.7 Estimating the Project.....	265

- 8.1.8 Project Cost Accounting 266
- 8.1.9 Resource Management 266
- 8.1.10 Project Financial Control..... 267
- 8.1.11 Automating Project Management Tasks 267
- 8.1.12 Manual Methods 267
- 8.2 Scheduling and Managing Multiple Contractors268
 - 8.2.1 The Importance of Scheduling and Managing Contractors.... 268
 - 8.2.2 The Role of a General Contractor or Project Manager 269
 - 8.2.3 Effective Scheduling Strategies for Multiple Contractors 270
 - 8.2.4 Best Practices for Managing Multiple Contractors..... 271
- 8.3 Project Risk Management272
 - 8.3.1 Risk Management Planning..... 276
 - 8.3.2 Risk Management Planning: Inputs 276
 - 8.3.3 Risk Management Planning: Tools and Techniques..... 277
 - 8.3.4 Risk Management Planning: Outputs 277
 - 8.3.5 Risk Management and Safety Protocols On-Site 280
- 8.4 Risk Identification.....280
 - 8.4.1 Qualitative Risk Analysis 281
 - 8.4.2 Quantitative Risk Analysis..... 282
 - 8.4.3 Risk Response Planning 283
 - 8.4.4 Risk Response Planning: Inputs..... 284
 - 8.4.5 Risk Response Planning: Tools and Techniques 284
 - 8.4.6 Risk Response Planning: Outputs..... 286
 - 8.4.7 Risk Monitoring and Control 288
 - 8.4.8 Quality Assurance in Building and Remodeling..... 289
 - 8.4.9 Documentation and Reporting..... 290
