The plans and elevations that appear in this book are based on  
original drawings and blueprints found in 1962 and 1963 in  
Giuseppe Terragni's former office in Como, Italy, by the author.  
Every effort was made to be faithful to Terragni's original notations,  
with only minor adjustments included for the sake of clarity rather  
than the extrapolation of the incomplete record of sketches and  
working drawings into a consistent whole. However, the numbering  
of the various schemes is a register determined by the author.
