EXCLU DU PRÊT

JOURNAL OF THE OPERATIONAL RESEARCH SOCIETY

Contents

VOLUME 39 NUMBER 10

OCTOBER 1988

General Paper

- Colin Eden and Chris Huxham** 889 Action-oriented strategic management

Case-oriented Papers

- Wade D. Cook, Igal Golan, Alex Kazakov and Moshe Kress** 901 A case study of a non-compensatory approach to ranking transportation projects

- S. Andrew Starbird** 911 Optimal loading sequences for fresh-apple storage facilities

Theoretical Papers

- Robert W. Ashford and Maria C. M. Guedes** 919 Using control variables to improve the efficiency of percentile estimation in stochastic simulation

- Paul N. Finlay, Gareth J. Forsey and John M. Wilson** 933 The validation of expert systems—contrasts with traditional methods

- Linda Weiser Friedman and Israel Pressman** 939 The metamodel in simulation analysis: can it be trusted?

- K. P. Jun and H. G. Perros** 949 Analytic and numerical solutions of an N duplicate-server system

- Christian N. Madu** 959 A closed queueing maintenance network with two repair centres

Technical Notes

- Roger M. Hill and Robert W. K. Odoni** 969 Time to sell a given quantity of stock

- David Worthington** 973 A normal approximation for the $M(\lambda_0)/G/S//N$ queueing model

Book Selection

- R. Ahlswede and I. Wegener** 977 Search Problems

- R. H. Mole** 978 BASIC Business Analysis and Operational Research

- B. L. Golden and A. A. Assad (Editors)** 979 Vehicle Routing: Methods and Studies (Studies in Management Science and Systems, Volume 16)
