# NONLINEAR ANALYSIS

## THEORY, METHODS & APPLICATIONS

VOLUME 16 NUMBER 5

1991

### CONTENTS

- |                                       |     |   |
|---------------------------------------|-----|---|
| P. J. RABIER                          | 399 | Topological degree and the theorem of Borsuk for general covariant mappings with applications |
| J. BERKOVITS and<br>V. MUSTONEN       | 421 | On multiple solutions for a class of semilinear wave equations                                |
| MAN KAM KWONG                         | 435 | Uniqueness results for Emden-Fowler boundary value problems                                   |
| E. A. DE B. E SILVA                   | 455 | Linking theorems and applications to semilinear elliptic problems at resonance                |
| W. E. FITZGIBBON and<br>M. E. PARROTT | 479 | Linearized stability of semilinear delay equations in fractional power spaces                 |
| W. H. YANG                            | 489 | On generalized Hölder inequality  |
| SOFTWARE SURVEY SECTION               | I   |   |
