FASCICULUS 1

1991

AKADÉMIAI KIADÓ, BUDAPEST
PERGAMON PRESS, OXFORD

CONTENTS — СОДЕРЖАНИЕ

<i>N. K. Agbeko</i> , On an inequality of Longnecker and Serfling	3
<i>V. V. Arestov</i> , Integral inequalities for algebraic polynomials with a restriction on their zeros	11
<i>C. A. Пичугов</i> , Об отделимости множеств гиперплоскостью в L_p	21
<i>I. I. Sharapudinov</i> , On the approximation of discrete functions by Fourier—Hahn sums.....	35
<i>M. N. Sheremeta</i> , On the convergence rate of the partial sums of positive entire Dirichlet series	47
<i>B. Uhrin</i> , Projection minima of a symmetric convex body	55
<i>V. A. Yudin</i> , A multiplier in double Fourier series	67
