QUEUEING SYSTEMS

VOLUME 18 (1994) Nos. 3,4

Published November 1994

Contents

Perturbation analysis of the $GI/GI/1$ queue <i>M.A. Zazanis and R. Suri</i>	199
A comparison of three random disciplines <i>S.W. Fuhrmann and I. Iliadis</i>	249
A duality approach to admission and scheduling controls of queues <i>S.H. Xu</i>	273
Control and scheduling in a two-station queueing network: Optimal policies and heuristics <i>H. Chen, P. Yang and D.D. Yao</i>	301
A decomposition theorem and related results for the discriminatory processor sharing queue <i>K.M. Rege and B. Sengupta</i>	333
Approximating queue size and waiting time distributions in general polling systems <i>A. Federgruen and Z. Katalan</i>	353
The polling system with a stopping server <i>M. Eisenberg</i>	387
Acknowledgement of referees' services	433
Author index	435
