■ Supplementary material for this paper is available separately (consult the masthead page for ordering information); all supplementary material except structure factor tables will also appear following the paper in the microfilm edition of this journal.

\* In papers with more than one author, the asterisk indicates the name of the author to whom inquiries about the paper should be addressed.

#### ANNOUNCEMENT

At the end of this issue you will find reproduced the table of contents  
of the September/October issue of *Energy & Fuels*.
