

# Applied Physics

Volume 34 Number 17 7 September 2001

**Review articles:**

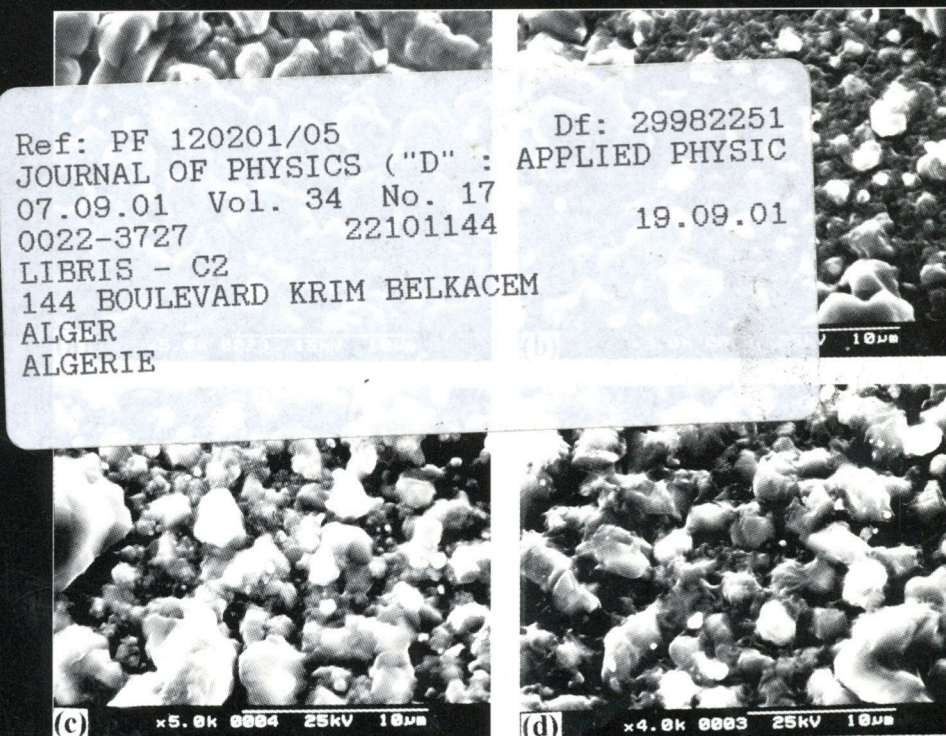

**Magneto-optical recording**

*S Tsunashima*

**Cathode spots of electric arcs**

*B Jüttner*

Online: [www.iop.org/journals/jphysd](http://www.iop.org/journals/jphysd)

# Journal of Physics D: Applied Physics

Volume 34

Number 17

7 September 2001

## RAPID COMMUNICATIONS

- L95 **Snapback behaviour and its similarity to the switching behaviour in ultra-thin silicon dioxide films after hard breakdown**  
T P Chen, M S Tse, C Q Sun, S Fung and K F Lo
- L99 **Three-dimensional modelling of a dc non-transferred arc plasma torch**  
He-Ping Li and Xi Chen

## TOPICAL REVIEWS

- R87 **Magneto-optical recording**  
S Tsunashima
- R103 **Cathode spots of electric arcs**  
B Jüttner

## PAPERS

### APPLIED INTERFACES AND SURFACES

- 2573 **Coupled diffusional/displacive transformations: addition of substitutional alloying elements**  
S A Mujahid and H K D H Bhadeshia
- 2581 **Characterization of  $\text{CuIn}_{1-x}\text{Ga}_x\text{S}_2$  films synthesized by graphite-box annealing of stacked elemental layers**  
S Bandyopadhyaya, S Roy, P Guha, S Chaudhuri and A K Pal
- 2589 **The effect of structural disorder on mechanical stress in a-Si:H films**  
B Pantchev, P Danesh, I Savatinova, E Liarokapis, B Schmidt and D Grambole
- 2593 **A 'blurred film' model in polarized light reflectometry for characterization of thick films and surface layers**  
R Z Vitlina and G I Surdutovich
- 2599  **$\text{Ce}^{3+}$ -doped stillwellites: a new luminescent system with strong ion lattice coupling**  
L C Nehru, K Marimuthu, M Jayachandran, Chung-Hsin Lu and R Jagannathan
- 2606 **Characterization of thin indium tin oxide films deposited by pulsed XeCl laser ablation**  
M Martino, A Luches, M Fernández, P Anobile and V Petruzzelli
- 2610 **Ultra-thin lubricating films under transient conditions**  
M Al-Samieh and H Rahnejat

### APPLIED MAGNETISM AND MAGNETIC MATERIALS

- 2622 **Magnetic dipole model of a permanent magnet based device**  
S Nedelcu and J H P Watson
- 2529 **Dynamics of freely-suspended drops**  
H E Potts, R K Barrett and D A Diver

### EXPERIMENTAL, COMPUTATIONAL AND THEORETICAL PARTICLE BEAM AND PLASMA SCIENCE

- 2637 **A calculation model for the evaporation recoil pressure in laser material processing**  
Xi Chen and Hai-Xing Wang
- 2643 **Plasma diagnostics with Langmuir probes in the equatorial ionosphere: I. The influence of surface contamination**  
A Piel, M Hirt and C T Steigies
- 2650 **Plasma diagnostics with Langmuir probes in the equatorial ionosphere: II. Evaluation of DEOS flight F06**  
M Hirt, C T Steigies and A Piel
- 2658 **Dynamic force balance model for metal transfer analysis in arc welding**  
Jae H Choi, Jihye Lee and Choong D Yoo

*(Continued on inside back cover)*
