TOPICAL REVIEW

- R39** **Micromechanical instruments for ferromagnetic measurements**
J Moreland

PAPERS

APPLIED MAGNETISM, MAGNETIC MATERIALS AND SUPERCONDUCTIVITY

- 419** **Circular magnetic bistability in Co-rich amorphous microwires**
A Chizhik, J Gonzalez, A Zhukov and J M Blanco
- 423** **Exchange coupling and magnetic properties of Sm-Co/Fe₆₅Co₃₅ multi-layered films**
C-y You, C Yang, Z D Zhang, J Han, W Liu and X K Sun
- 428** **Microstructure and magnetism of Fe nanoparticles embedded in Al₂O₃-ZnO matrix**
O Santini, D H Mosca, W H Schreiner, R Marangoni, J L Guimarães, F Wypych and A J A de Oliveira

PHOTONICS AND SEMICONDUCTOR DEVICE PHYSICS

- 434** **Self-assembly surface modified indium-tin oxide anodes for single-layer light-emitting diodes**
J Morgado, N Barbagallo, A Charas, M Matos, L Alcácer and F Cacialli
- 439** **Adiabatic passage in quantum wells**
K L Shuford and J L Krause
- 446** **Localized transitions in the thermoluminescence of LiF : Mg,Ti: potential for nanoscale dosimetry**
Y S Horowitz, L Oster, S Biderman and Y Einav
- 460** **Optical bistability in nonlinear composites with coated ellipsoidal nanoparticles**
A Pinchuk

EXPERIMENTAL, COMPUTATIONAL AND THEORETICAL PARTICLE BEAM AND PLASMA SCIENCE

- 465** **Intrinsic sheath edge conditions for sheath instability in low-pressure electronegative plasmas**
A Kono
- 473** **Decomposition of gas-phase diphenylether at 473 K by electron beam generated plasma**
H-H Kim, T Hakoda and T Kojima
- 482** **The etching of silicon carbide in inductively coupled SF₆/O₂ plasma**
N O V Plank, M A Blauw, E W J M van der Drift and R Cheung
- 488** **Three-dimensional numerical modelling of a magnetically deflected dc transferred arc in argon**
A Blais, P Proulx and M I Boulos
- 497** **Electron transport coefficients in low current molecular gas discharges**
G Dall'Armi and J Fletcher
- 505** **Ion transport parameters through low pressure noble gas discharges**
G Dall'Armi and J Fletcher
- 512** **Study of efficacy in a mercury-free flat discharge fluorescent lamp using a zero-dimensional positive column model**
T Shiga, L C Pitchford, J-P Boeuf and S Mikoshiba

APPLIED SURFACES AND INTERFACES

- 522** **Explanation of the structural changes in the Si : H thin films by monohydride cluster formation**
N Dutta Gupta and P Chaudhuri
- 529** **Transport property of novel sono-catalysed LiCF₃SO₃ doped SiO₂-PEG ormolyte**
H Y Jung, R K Gupta, C J Wi and C M Whang
