## CONTENTS

Volume 42

July–August 1994

Number 4

<b>IN THIS ISSUE</b>	574	Computational Complexity of Some Maximum Average Weight Problems With Precedence Constraints	688
		U. Faigle and W. Kern	
<b>OR FORUM</b>		Optimal Production Sequence for a Product With Matching	694
The Devolution of OR/MS: Implications From a Statistical Content Analysis of Three Flagship Journals	577	Kut C. So and Carlton H. Scott	
Arnold Reisman and Frank Kirschnick			
<b>OR PRACTICE</b>		Optimality of Monotone Assemblies for Coherent Systems Composed of Series Modules	709
Quantitative Methods in Credit Management: A Survey	589	Frank K. Hwang and Uriel G. Rothblum	
Eric Rosenberg and Alan Gleit			
Devising a Cost Effective Schedule for a Baseball League	614	Optimal Control Policy for Stochastic Inventory Systems With Markovian Discount Opportunities	721
Robert A. Russell and Janny M. Y. Leung		Yu-Sheng Zheng	
<b>ARTICLES</b>		Markov Decision Processes With Imprecise Transition Probabilities	739
Optimal Solution of Vehicle Routing Problems Using Minimum $K$ -Trees	626	Chelsea C. White, III and Hany K. Eldeib	
Marshall Fisher			
On the Convergence Rates of IPA and FDC Derivative Estimators	643	Transient Behavior of the $M/G/1$ Workload Process	750
Pierre L'Ecuyer and Gaétan Perron		Joseph Abate and Ward Whitt	
Cross Decomposition Applied to Integer Programming Problems: Duality Gaps and Convexification in Parts	657	Optimal Prices of an $M/G/1$ Jobshop	765
Kaj Holmberg		Søren Glud Johansen	
Dynamic Recomputation Cannot Extend the Optimality Range of Priority Indices	669	<b>TECHNICAL NOTE</b>	
Uriel G. Rothblum and Michael H. Rothkopf		A Polynomial Algorithm for the Degree Constrained Minimum $K$ -Tree Problem	775
A Greedy Randomized Adaptive Search Procedure for the Two-Partition Problem	677	Marshall Fisher	
Manuel Laguna, Thomas A. Feo and Hal C. Elrod		<b>CONTRIBUTORS</b>	780
		<b>APPRECIATION TO 1993 REFEREES</b>	782
		<i>Cover illustration: Branch clusters, from Fisher, "Optimal Solution of Vehicle Routing Problems Using Minimum <math>K</math>-Trees," p. 635.</i>
