CONTENTS

- C.S. Poon** iii Editorial
- Z. Abbas, A.P. Moghaddam,
B.-M. Steenari** 291 Release of salts from municipal solid waste combustion residues
- Y. Huang, M. Takaoka, N. Takeda** 307 Removal of unburned carbon from municipal solid waste fly ash by column flotation
- M. Aresta, P. Caramuscio,
L. De Stefano, T. Pastore** 315 Solid state dehalogenation of PCBs in contaminated soil using NaBH₄
- J.A. Stegemann, N.R. Buenfeld** 321 Prediction of unconfined compressive strength of cement paste containing industrial wastes
- L.S. Pioro, I.L. Pioro** 333 Wasteless combined aggregate-coal-fired steam-generator/melting-converter
- M.M. Jaworska, E. Guibal** 339 Water leaching of titanium from ore flotation residue
- P. Caramuscio, L. De Stefano,
M. Seggiani, S. Vitolo, P. Narducci** 345 Preparation of activated carbons from heavy-oil fly ashes
- M. Leist, R.J. Casey, D. Caridi** 353 The fixation and leaching of cement stabilized arsenic

(continued on inside back cover)
