BPA

Turbomachinery International is published for key management and engineering personnel in turbomachinery-using industries. Our editorial content is aimed at keeping our readers informed of all important developments in the field. We provide concepts, technical details and business developments to enable our readers to share the experiences of others as to systems, approaches and equipment that have proven valuable, and to stimulate new approaches to energy conversion. Publisher makes no guarantees or recommendations concerning any process, procedure or device described herein. Turbomachinery International is published seven times a year (six magazine issues and one handbook) by Business Journals, Inc. Executive and Editorial offices, 50 Day Street, Norwalk, Connecticut, U.S.A. 06854. Volume 34, Number 2. Copyright © 1993 by Business Journals, Inc. Second Class postage paid in Norwalk, Connecticut and at additional mailing offices. (USPS 871-500. ISSN 0149-4147). Turbomachinery International is available on microfilm from University Microfilms International, 300 North Zeeb Road, Ann Arbor, Michigan, U.S.A. 48106. **Postmaster:** Please send address changes to Circulation Manager, Turbomachinery International, P.O. Box 5550, Norwalk, CT 06856-5550 U.S.A.

ICAD: The Next Step?

The next step forward in gas turbines for power generation may be an intercooled aeroderivative intended for intermediate-load applications, according to research by ERRI and some leading gas turbine manufacturers. . . . 30

by Thomas Barker

Asia Provides Opportunities for Combined Cycle

The Asian Pacific region was the largest market for gas turbines in 1993, with combined cycle the main application. As utilities struggle with high growth rates and ponder IPP involvement, the stage seems set for a strong gas turbine market into the next century. . . . 32

by Eric Jeffs

CHP Dominates Dutch Energy Plans

The restructuring of the electricity supply system in The Netherlands created new opportunities for district heating and industrial CHP schemes. In many cases, the utility companies took part in joint ventures to build and operate the power plants for their clients. . . . 42

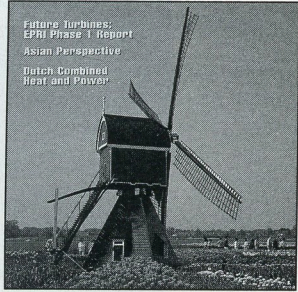

by Eric Jeffs

Wahlco Promote On-site Diverter Tests

Having successfully performed a test of a diverter valve under full operating conditions at PLN's Gresik combined cycle plant in Eastern Java, the manufacturers, Wahlco, are encouraging other potential customers to adopt the same approach in preference to witnessing a factory test. . . . 50

SPS Provides Turbine Reliability Database

An interview with Salvatore A. DellaVilla, President of Strategic Power Systems Inc, who maintain a gas turbine database called ORAP. . . . 54
