BPA

Turbomachinery International is published for key management and engineering personnel in turbomachinery-using industries. Our editorial content is aimed at

keeping our readers informed of all important developments in the field. We provide concepts, technical details and business developments to enable our readers to share the experiences of others as to systems, approaches and equipment that have proven valuable, and to stimulate new approaches to energy conversion. Publisher makes no guarantees or recommendations concerning any process, procedure or device described herein.

Turbomachinery International is published seven times a year (six magazine issues and one handbook) by Business Journals, Inc.

Executive and Editorial offices, 50 Day Street, Norwalk, Connecticut, U.S.A. 06854. Volume 35, Number 5. Copyright © 1994 by Business Journals, Inc. Second Class postage paid in Norwalk, Connecticut and at additional mailing offices. (USPS 871-500. ISSN 0149-4147). Turbomachinery International is available on microfilm from University Microfilms International, 300 North Zeeb Road, Ann Arbor, Michigan, U.S.A. 48106. Postmaster: Please send address changes to Circulation Manager, Turbomachinery International, P.O. Box 5550, Norwalk, CT 06856-5550 U.S.A.

On the cover:

Our July/August issue focuses on turbomachinery instrumentation, monitoring and controls. The main cover photo shows one of the more high-profile personalities at Compressor Controls Corporation, Product Marketing Manager for Research and Development Iouri Pereltsvaig, born in Ukhta, Russia and now a long-time resident of Des Moines, Iowa. Iouri spends countless hours at this console, performing tests through simulation to fine-tune the control system and associated operator interface software.

Watch for a profile of Compressor Controls, and their control system retrofit work on the GAZPROM pipeline in Russia, next month in the September/October issue of **Turbomachinery International**.
