**Contents**

- |  |     |   |
|--|-----|---|
| <b>C. E. Anderson, Jr,<br/>P. E. O'Donoghue and<br/>S. R. Bodner</b> | 371 | Fracture of cubical tungsten specimens under explosive loading  |
| <b>N. K. Prinja</b>  | 379 | On the dynamic behaviour of a long missile pipe after impact on a rigid target pipe   |
| <b>J. Quanlin</b>  | 391 | Dynamic response of an infinitely large rigid-plastic plate impacted by a rigid cylinder with transverse shear and rotatory inertia |
| <b>Y. L. Hua, T. X. Yu and<br/>S. R. Reid</b>                        | 401 | Double-hinge modes in the dynamic response of plastic cantilever beams subjected to step loading                                    |
| <b>Y. Xia</b>  | 415 | Behaviour of a two-layered beam under impact loading  |
| <b>Announcement</b>  | 429 |   |
