**Contents**

- |   |   |
|---|---|
| <b>N. Jones</b>                                   | 1 Editorial   |
| <b>Ü. Lepik</b>                                   | 3 Dynamic response of elastic-plastic beams with axial constraints  |
| <b>Ü. Lepik</b>                                   | 17 Impulsively loaded fully fixed-ended elastic-plastic beams by Galerkin's method                          |
| <b>J. R. Klepaczko</b>                            | 25 An experimental technique for shear testing at high and very high strain rates. The case of a mild steel |
| <b>P. Tuğcu and K. W. Neale</b>                   | 41 A numerical simulation of impact response of typical metals including strain-rate change tests           |
| <b>Yu Shanbing, Sun Gengchen and Tan Qingming</b> | 67 Experimental laws of cratering for hyper-velocity impacts of spherical projectiles into thick target     |
