

International Journal of
**IMPACT
ENGINEERING**

Editor-in-Chief
Norman JONES

Contents

- | | | |
|--|-----|---|
| M. Jamjian, J. L. Sackman and W. Goldsmith | 183 | Response of an infinite plate on a honeycomb foundation to a rigid cylindrical impactor |
| A. Gilchrist and N. J. Mills | 201 | Modelling of the impact response of motorcycle helmets |
| M. J. Forrestal, D. Y. Tzou and J. Li | 219 | A counterintuitive region of response for elastic-plastic rings loaded with axisymmetric pressure pulses |
| M. Langseth and P. K. Larsen | 225 | Dropped objects' plugging capacity of aluminium alloy plates |
| L. Zhu, D. Faulkner and A. G. Atkins | 243 | The impact of rectangular plates made from strain-rate sensitive materials |
| F. Hörz, M. Cintala, R. P. Bernhard and T. H. See | 257 | Dimensionally scaled penetration experiments: aluminum targets and glass projectiles 50 μ m to 3.2 mm in diameter |
| M. Irvine | 281 | Dynamic loading on bucketwheel reclaimers |

PERGAMON

INTERNATIONAL JOURNAL OF IMPACT ENGINEERING

Continued from outside front cover

X. D. Wang, T. X. Yu and S. A. Meguid	297	On the dynamic analysis of an ideally-plastic softening beam
A. P. Mouritz	311	Failure mechanisms of mild steel bolts under different tensile loading rates
Corrigendum	325	
Announcements	339
