

International Journal of
**IMPACT
ENGINEERING**

Editor-in-Chief
Norman JONES

Guest Editor
Vernal KENNER

**COMMEMORATIVE ISSUE IN HONOUR OF
PROFESSOR WERNER GOLDSMITH'S 70th BIRTHDAY**

Contents

N. Jones	343	Foreword
V. H. Kenner	345	Introduction
V. H. Kenner	347	Werner Goldsmith—a brief biography
	349	Publications of Werner Goldsmith
	357	Students of Werner Goldsmith
	359	Tributes
W. Johnson	365	The rise and fall of early war rockets
C. H. Yew and P. A. Taylor	385	A thermodynamic theory of dynamic fragmentation
M. J. Forrestal, B. S. Altman, J. D. Cargile and S. J. Hanchak	395	An empirical equation for penetration depth of ogive-nose projectiles into concrete targets
R. L. Woodward, N. M. Burman and B. J. Baxter	407	An experimental and analytical study of the Taylor impact test

PERGAMON

INTERNATIONAL JOURNAL OF IMPACT ENGINEERING

Continued from outside front cover

- | | | |
|---|-----|--|
| E. Wu, J.-C. Yeh and
C.-S. Yen | 417 | Impact on composite laminated plates: an inverse method |
| W. J. Stronge | 435 | Planar impact of rough compliant bodies |
| S. T. Jenq, H.-S. Jing and
C. Chung | 451 | Predicting the ballistic limit for plain woven glass/epoxy composite laminate |
| G. G. Corbett and S. R. Reid | 465 | Failure of composite pipes under local loading with a hemispherically-tipped indenter |
| M. Ravid, S. R. Bodner and
I. Holcman | 491 | Penetration into thick targets—refinement of a 2D dynamic plasticity approach |
| P. Kosza and M. B. Sayir | 501 | Failure patterns in the core of sandwich structures under impact loading |
| J. Dual | 519 | Generation of longitudinal and bending waves in bars by piezoelectric elements with and without backing material |
| A. K. Ommaya, L. Thibault and
F. A. Bandak | 535 | Mechanisms of impact head injury |
| W. N. Hardy, T. B. Khalil and
A. I. King | 561 | Literature review of head injury biomechanics |
