NUMBER 8, PAGES 287-326

21 APRIL 1997

Abortion drug still causing controversy, p293

Improving fish stocks, p311

Will the US ratify the chemical weapons convention? p326

## 288 LETTERS

## 289 NEWS

- ◆ Greenpeace warns of massive pollution problems in Russia
- ◆ Why the smell of coffee is good for you
- ◆ EC's fifth framework R&D programme approaches finalisation
- ◆ European Parliament calls for sales suspension of transgenic maize

## 296 SCI CENTENARY MEDAL

### From whippersnapper to chairman

Maria Burke talks to Sir Ronald Hampel, this year's winner of SCI's centenary medal, about his life and career at ICI.

## 298 CIBA SPECIALTY CHEMICALS

### The butterfly's bright future

Graham Lawton reports on the outlook for Ciba following its spin-off from Novartis.

## 301 PATENTS

## 302 DIET & NUTRITION

### Polyunsaturated fatty acids in diet and health

Ian Newton of Hoffman-La Roche describes how putting the fish back into your diet could be beneficial.

## 306 MEDICINAL CHEMISTRY

### Novel analgesics

Pain is a major problem which, apart from the human dimension, also costs billions of dollars in lost productivity and in medicines. Carlton Law and William Brose of Stanford University take a look at the new generation of painkillers being developed.

## 310 LAW FILE

### IPPC — what more is involved?

Paul Rice and Vanessa Wallis compare the new European Integrated Pollution Prevention and Control regime with the UK's existing legislation.
