

Recu le 18 JAN. 1989

## AIRCRAFT TECHNOLOGY, CONVENTIONAL, STOL/VTOL

Extension of Inverse Design Techniques for Multicomponent Airfoils (TN).....	M. Siladic and G. F. Carey	745
--	----------------------------	-----

## FLUID DYNAMICS

Near-Wall Turbulence Models for Complex Flows Including Separation.....	H. C. Chen and V. C. Patel	641
Multigrid Acceleration of the Flux-Split Euler Equations .....	W. K. Anderson, J. L. Thomas, D. L. Whitfield	649
Efficient Euler Solver with Many Applications.....	G. Moretti	655
Analysis of Three-Dimensional Turbulent Wakes by a Momentum Integral Technique .....	B. Lakshminarayana and J. Zhang	661
Measurements in Turbulent Swirling Flow Through an Abrupt Axisymmetric Expansion.....	P. A. Dellenback, D. E. Metzger, G. P. Neitzel	669
Numerical Study of Gas-Particle Flow in a Solid Rocket Nozzle .....	C. J. Hwang and G. C. Chang	682
Lagrangian Simulation of a Reacting Mixing Layer at Low Heat Release.....	A. F. Ghoniem and P. Givi	690
Nonequilibrium Effects in Oblique Shock-Wave Reflection.....	H. M. Glaz, P. Colella, J. P. Collins, R. E. Ferguson	698
Complete Smooth Wall Velocity Profile in a Turbulent Boundary Layer (TN) .....	P. A. Aswatha Narayana and G. V. Ramana	748
Prediction of Radially Spreading Turbulent Jets (TN) .....	M. R. Malin	750
Quadrature Formula for a Double-Pole Singular Integral (TN) .....	R. K. Bera	752

## INTERDISCIPLINARY TOPICS

Response of Hot-Element Wall Shear-Stress Gages in Laminar Oscillating Flows .....	W. J. Cook, T. A. Giddings, John D. Murphy	706
Grid Embedding Technique Using Cartesian Grids for Euler Solutions (TN) .....	R. A. Mitcheltree, M. D. Salas, H. A. Hassan	754

## STRUCTURAL MECHANICS AND MATERIALS

Analysis of Asymmetric Composite Laminates .....	C. T. Sun and H. Chin	714
Higher-Order Theory of Homogeneous Plate Flexure .....	A. V. Krishna Murty and S. Vellaichamy	719
Spectral Basis Theory for the Identification of Structural Dynamic Systems .....	J. A. Fabunmi	726

Table of Contents continued on back cover

**CONTENTS—continued**

Sine Dwell or Broadband Methods for Modal Testing .....	J.-C. Chen and B. K. Wada	733
Simultaneous Analysis and Design for Eigenvalue Maximization .....	Y. S. Shin, R. T. Haftka, R. H. Plaut	738
Buckling Analysis of Sandwich Columns of Linearly Varying Thickness (TN) .....	N. Paydar	756
ERRATUM .....		760
NOTICE TO SUBSCRIBERS .....		760
QUESTIONNAIRE .....		
Soviet/Japanese Abstracts: How Do You Use Them? .....		761
SELECTED ABSTRACTS FROM SOVIET AND JAPANESE AEROSPACE LITERATURE .....		
Aerospace Alloys and Properties .....		762
Structural Mechanics .....		766
