

## FLUID DYNAMICS

Chaotic Response of Panel Vibrations Forced by Turbulent Boundary Layer and Sound . . . . .	L. Maestrello	289
Multidomain Spectral Computations of Sound Radiation from Ducted Fans . . . . .	D. Stanescu, D. Ait-Ali-Yahia, W. G. Habashi, M. P. Robichaud	296
Constructing an Entropy-Stable Upwind Scheme for Compressible Fluid Flow Computations . . . . .	G. F. Naterer	303
Spurious Numerical Oscillations in Simulation of Supersonic Flows Using Shock-Capturing Schemes . . . . .	T. K. Lee and X. Zhong	313
Flutter Computation of Turbomachinery Cascades Using a Parallel Unsteady Navier-Stokes Code . . . . .	S. Ji and F. Liu	320
Investigation of Unsteady Boundary Layer Developed on a Rotationally Oscillating Circular Cylinder . . . . .	T. Lee	328
Finite Volume Algorithm to Compute Dense Compressible Gas-Solid Flows . . . . .	L. Combe and J.-M. Hérard	337
Interaction of an Entropy Spot with a Shock . . . . .	M. Y. Hussaini and G. Erlebacher	346
Third-Order, Modified-Flux-Approach-Type Essentially Nonoscillating Schemes for Wave Equations (TN) . . . . .	D. K. Ko and D. J. Lee	384
Shear Layer Instability Induced Separation Control (TN) . . . . .	T. T. Ng and Y. Lang	386
Planar Symmetry in the Unsteady Wake of a Sphere (TN) . . . . .	R. Mittal	388
One-Equation Turbulence Model of Spalart and Allmaras in Supersonic Separated Flows (TN) . . . . .	H. Y. Wong	391
Wake Generation Compressibility Effects in Unsteady Aerodynamics (TN) . . . . .	R. J. Epstein and D. B. Bliss	393
Two-Way Coupled Gas-Particle Systems in an Axisymmetric Ramjet Combustor (TN) . . . . .	E. J. Chang, K. Kailasanath, S. K. Aggarwal	396
Nonsingular Eigenvectors of the Flux Jacobian Matrix for Reactive Flow Problems (TN) . . . . .	M. A. Busby and P. Cinnella	398
Instantaneous Velocity Measurements Around an Oscillating Airfoil (TN) . . . . .	M. Rank and B. R. Ramaprian	401

## PROPULSION

Determining Functional Reliability of Pyrotechnic Mechanical Devices . . . . .	L. J. Bement and H. A. Multhaupt	357
--	----------------------------------	-----

## STRUCTURAL MECHANICS AND MATERIALS

Limit Cycle Oscillations of a Cantilevered Wing in Low Subsonic Flow . . . . .	D. Tang, E. H. Dowell, K. C. Hall	364
Modeling and Validation of Induced Strain Actuation of Composite Coupled Plates . . . . .	C.-H. Hong and I. Chopra	372

Table of Contents continued on back cover

## CONTENTS—continued

<b>New Shear Actuated Smart Structure Beam Finite Element</b> . . . . .	A. Benjeddou, M. A. Trindade, R. Ohayon	<b>378</b>
<b>Effect of Thickness on Large-Deflection Behavior of Shells (TN)</b> . . . . .	R. A. Chaudhuri and R. L. Hsia	<b>403</b>
<b>BOOK REVIEWS</b>		
<b>Review of <i>EUROSHOCK—Drag Reduction by Passive Shock Control</i></b> . . . . .	P. M. Hartwich	<b>406</b>
<b>Review of <i>Nonlinear Dynamics and Chaotic Phenomena</i></b> . . . . .	J. L. Lumley	<b>407</b>
