

# Biology of the *Cell*

[www.elsevier.com/locate/biocell](http://www.elsevier.com/locate/biocell)

Edited by the Société Française  
des Microscopies and the Société  
de Biologie Cellulaire de France

**Special issue:**  
Functional architecture  
of the cell nucleus

Volume 96 (8) - October 2004

ISSN 0248-4900

# Biology of the cell

Volume 96, No 8, 2004

## Contents

### Editorial

- 553 Where do we go in the nucleus?  
S. Fakan and R. Van Driel

### Reviews

- 555 Higher order chromatin architecture in the cell nucleus: on the way from structure to function  
T. Cremer, K. Küpper, S. Dietzel and S. Fakan
- 569 Positioning the genome within the nucleus  
P.J. Verschure
- 579 The nucleolus and transcription of ribosomal genes  
I. Raška, K. Koberna, J. Malínský, H. Fidlerová and M. Mašata
- 595 Internal organisation of the nucleus: assembly of compartments by macromolecular crowding and the nuclear matrix model  
R. Hancock

- 603 Rearrangement of nuclear ribonucleoprotein (RNP)-containing structures during apoptosis and transcriptional arrest  
M. Biggiogera, M.G. Bottone, A.I. Scovassi, C. Soldani, L. Vecchio and C. Pellicciari
- 617 Boundary elements and nuclear organization  
M. Capelson and V.G. Corces
- 631 Heterochromatin structure and function  
N. Dillon
- 639 Nuclear export of RNA  
M.S. Rodriguez, C. Dargemont and F. Stutz
- 657 The role of intranuclear lipids  
E. Albi and M.P. Viola Magni

*Abstracted / Indexed in:* Biological Abstracts / Biosis; Cambridge Scientific Abstracts; Chemical Abstracts; CNRS / Pascal; Current Contents (Life Sciences); Excerpta Medica / EMBase; Index Medicus / Medline; Science Citation Index
