

## FLUID DYNAMICS

<b>Computational Aeroacoustics Simulations Using the Expansion About Incompressible Flow Approach</b> . . . . .	S. A. Slimon, M. C. Soteriou, D. W. Davis	409
<b>Characteristic-Based Treatment of Source Terms in Euler Equations for Roe Scheme</b> . . . . .	R. Mohanraj, Y. Neumeier, B. T. Zinn	417
<b>Mathematical and Physical Constraints on Large-Eddy Simulation of Turbulence</b> . . . . .	S. Ghosal	425
<b>Unsteady Drag Consideration in Stochastic Eulerian-Lagrangian Formulation of Two-Phase Flow</b> . . . . .	K.-C. Chang and J.-C. Yang	434
<b>Modeling of Spacecraft Rarefied Environments Using a Proposed Surface Model</b> . . . . .	V. K. Dogra, R. J. Collins, D. A. Levin	443
<b>Shock Oscillations in Diffuser Modeled by a Selective Noise Amplification</b> . . . . .	J.-C. Robinet and G. Casalis	453
<b>Blunt-Body Wave Drag Reduction Using Focused Energy Deposition</b> . . . . .	D. Riggins, H. F. Nelson, E. Johnson	460
<b>Boundary-Layer Structure in Cylindrical Rocket Motors (TN)</b> . . . . .	J. Majdalani	505
<b>Correlation for Formation of Inlet Vortex (TN)</b> . . . . .	A. Nakayama and J. R. Jones	508
<b>Computer Visualization of Vortex Wake Systems (TN)</b> . . . . .	R. C. Strawn, D. N. Kenwright, J. Ahmad	511

## STRUCTURAL MECHANICS AND MATERIALS

<b>Convex/Probabilistic Models of Uncertainties in Geometric Imperfections of Stiffened Composite Panels</b> . . . . .	M. A. Elseifi, Z. Gürdal, E. Nikolaidis	468
<b>Thermoelastic Interaction Between a Hole and an Elastic Circular Inclusion</b> . . . . .	C. K. Chao and T. Y. Heh	475
<b>Plastic Analysis of Complex Microstructure Composites Using the Generalized Method of Cells</b> . . . . .	C. E. Orozco and M.-J. Pindera	482
<b>Improvement of Analytical Model Using Uncertain Test Data</b> . . . . .	A. Cherki, B. Lallemand, T. Tison, P. Level	489
<b>Coupled Thermoelasticity of Shells of Revolution: Effect of Normal Stress and Coupling</b> . . . . .	M. R. Eslami, M. Shakeri, A. R. Ohadi, B. Shiari	496
<b>Modal Parameter Identification from Ambient Response (TN)</b> . . . . .	D.-Y. Chiang and M.-S. Cheng	513
<b>Interpretation of a Linear Solver Based on Davidson's Method (TN)</b> . . . . .	A. H. Chowdhury and A. Ghosh	515
<b>Delamination Fracture Toughness of Woven-Fabric Composites Under Mixed-Mode Loading (TN)</b> . . . . .	N. B. Adeyemi, K. N. Shivakumar, V. S. Avva	517
<b>Nonlinear Dynamic Stability of Laminated Beams Subjected to Pulsating Thermal Loads (TN)</b> . . . . .	R. Suresh, G. Singh, G. V. Rao	521
<b>Zeroth-Order Shear Deformation Theory for Plates (TN)</b> . . . . .	R. P. Shimpi	524

Table of Contents continued on back cover

**CONTENTS—continued**

**BOOK REVIEWS**

<b>Review of <i>Finite Element Analysis for Composite Structures</i> .....</b>	<b>R. L. Sierakowski</b>	<b>527</b>
<b>Review of <i>Impact on Composite Structures</i> .....</b>	<b>A. N. Palazotto</b>	<b>527</b>
