CHEMISTRY & INDUSTRY

13 SEP. 1989

EXCLU DU PRÊT

NUMBER 16, PAGES 505-540 21 AUGUST 1989

The UNITED ALKALI CO., Ltd.,
 Telephone: "Unique Liverpool." 30, James Street, LIVERPOOL. Telephone 601.

MANUFACTURERS OF
 Sulphuric Acid, Sulphate of Soda (all Salts), best test in bulk or ground and packed, Soda-bisulphate, Brown Fillets, Bleached Sulphur, Hydrochloric Acid (assorted and purified), Chloride of Calcium.

BLEACHING POWDER,
 FLOURS OF POTASH, SODA, AND BARYTA.

SODA ASH (all Strengths, by Ammonia and Le Blanc Processes).
REFINED ALKALI (all Strengths), **CRYSTAL CARBONATE,**
CAUSTIC SODA, 50% to 78%. **SODA CRYSTALS.**

BICARBONATE OF SODA (HIGH STRENGTH & MINERAL-WATER QUALITY).
CAUSTIC AND CARBONATE OF POTASH.

FERTILIZERS.
WHITE SALT in all qualities **ROCK SALT,** Lump and Ground.
STRONTIA SALTS (OXIDE, HYDRATE, CARBONATE).
MANGANATE OF SODA. **SULPHUR** (ROCK, ROLL, FLOWERS).

Red Antimony.	Copper Precipitate.	Chloride of Magnesium.	Sulphate of Copper.
Sulphate of Ammonia.	Chlorine Liquid Disinfectant.	Chlorine.	Hyposulphite of Soda.
Muriate of Ammonia.	Hydrazine.	Liquid Caustic Soda.	Chlorous Acid.
Hydrazine of Soda.	Cyanide of Potassium.	Sulphide of Sodium.	Acetic Acid.
Blue Copper.	Purple Oil.	Glycerine.	Acetate of Soda.

"STELLA METALS," Alloys of great tensile strength, and non-corrosive.
 HAZLHURST'S NOTED "FAMILY" & "CASHMERE" TOILET AND OTHER SOAPS.

CHLORINE DISINFECTANTS.
 The highest testimony to the germicidal power of Chlorine was given at the Leeds Sanitary Congress, September, 1897.
 At Maidstone, upon the best expert advice, Chloride of Lime was used to disinfect the entire system of water mains and reservoirs.

CHLORIDE OF LIME, 35% Available Chlorine.
 Also, Improved Plans for Local Authorities, and Home-hold Disinfection and Deodorisation; viz.,

CHLOROS, Liquid Sodium Hypochlorite, containing 10% Available Chlorine.
 Simplest and Strongest Disinfecting Liquor. No lime in deposit—practically Effortless; and

Sanitary CHLORIDE OF LIME,
 15% Available Chlorine.
 Does not go lumpy on exposure—a light bulky powder—can be handled with impunity.
 The above are the cheapest true disinfectants on the Market. Correspondence invited.

NEWS

EC waste liability proposals... Canadian PCB waste imports... Plea for faster UK pesticide registration process... Lords nitrate report... AZT study offers hope... Electricity prices... Britain's green labelling ideas... Chemical engineers dwindle... IUPAC Congress

506

CONFERENCE REPORT

Isosteric replacement

Isosteric replacement is an integral part of the armoury used by chemists in molecular design. Martin Christie and Roger Pettman report on an SCI symposium on isosteric replacements in drug design and pesticide chemistry.

512

NEWS REPORT

Scientific misconduct

Jeffrey Fox examines the debate in the USA over scientific misconduct and conflicts of interest, and on new ways of dealing with them.

514

COMMENT

Health & safety

Charlotte Clare considers the challenge being made to the recommendations of the Threshold Limit Value Committee for safe levels of chemicals in the working environment.

515

TENNANT LECTURE

Two Centuries of Chemistry and the Chemical Industry: a Retrospect

Lord Todd looks back at the past two hundred years of the UK chemical industry, from Charles Tennant's alkali business to its future prospects.

517

UNLEADED GASOLINE

Unleaded Gasoline: a Refiner's View of the Future

By the end of this century, 80 per cent of European vehicles will use unleaded fuel. BP International's Richard Houghton examines the impact these changes will have on European refiners.

523

PROCESS DEVELOPMENT

Polymorphism in Process Development

The discovery of crystal polymorphs should be treated as an opportunity rather than as a problem, Mike Bavin believes. He shows how Smith Kline & French have achieved results quickly with collaboration.

527

Pressure Filter Drying in Process Development

Rod Sellers explains how quality control at Kodak's batch fine chemicals plant at Kirkby was improved on installing a new filter/drier system.

530

COMMUNICATIONS TO THE EDITOR

Selective oxidation of allylic methyl groups in acyclic compounds

Jasvinder Singh, Arun Sabharwal, Pardeep K Sayal and Baldev R Chhabra

533

Cycloaddition of nitrile oxides to jojoba oil

Jameel Barlas, Stephen Crook, Morag G Leslie, R Michael Paton and Nigel Webb

534

HIGHLIGHTS

Stereoselective aldol reactions... synthesis of (+)-milbemycin... and of homododecahedrane... hydrogen bonding in diamides... reactions of π -allyl complexes with electrophiles... the first synthesis of tetrakis(trifluoromethyl)lead... and of gallane... and of a stable system with a xenon-carbon bond.

536

FOOD FACTS

Vitamin A and liver damage... food preferences in the elderly... apples - nature's toothbrush?... low-cal foods... and cocoa products.
