CONTAMINATED OIL

The Spanish Toxic Oil Syndrome

Although eight years have passed since 20,000 Spaniards became ill after consuming contaminated cooking oil, coordinated research into the syndrome only began two years ago. Peter Gillatt of the Leatherhead Food Research Association discusses the work undertaken so far to establish the cause of the disaster.

556

NEWS REPORT

Pesticides

Colleen Shannon reports on her recent visit to the British Government's pesticides data evaluation unit in Harpenden.

546

CONFERENCE REPORT

Energy conservation

A century after the death of James Prescott Joule, Judith Hart considers how his theory of energy conservation applies today.

547

NEWS REPORT

Deliberate release

Jeffrey Fox reports on the confusion in the USA over who is responsible for evaluating proposals to release genetically engineered organisms.

548

LAW FILE

Redundancy rights

Greville Janner, QC, MP, describes the procedure an employee should expect if he or she is made redundant.

551

PHOTOCHEMISTRY

Photochemistry and Imaging

Photography may be the most spectacular demonstration of light-induced processes but it is not the only one. John Coyle and Averil Horton of Cookson Plastics review the principles, applications and mechanisms of imaging chemistry.

553

RISK ASSESSMENT

Liability Insurance and the Chemical Industry

Affordable, adequate insurance is hard to find for UK chemical manufacturers. Tamar Posner explains how the Chemical Industries Association is trying to bridge the gulf of understanding that exists between the chemical and insurance industries.

560

CHEMICAL HISTORY

Research and World War II at Albright & Wilson

Stanley Wilson recalls his time at A&W as a young trainee chemist during World War II.

563

COMMUNICATIONS TO THE EDITOR

An improved procedure for 3,7,7-trimethyl-3- α -hydroxy-bicyclo (4,1,0)hept-4-ene: an important intermediate for pyrethroids.

568

Subhash C Shaha, Gajanan D Joshi, Prabhakar P Pai,
Abdul Rakeeh A S Deshmukh and Guranath H Kulkarni

A facile synthesis of N-alkylisatins.

569

Krishna C Joshi, Renuka Jain, Anshu Dandia, Kanti Sharma
and Sunita Baweja

A convenient method for N-benylation of heterocycles.

569

Mark Searcey, John B Lee and Peter L Pye

APPLIED HIGHLIGHTS

Fuel cells for cogenerating electricity and SO₂...
preparing electrically conducting condensed ring
polymer films... soluble conducting polymers
... new inorganic low melting electrolyte for
rechargeable batteries.

Chemistry and Industry

(ISSN 0099-3068) is published semi-monthly by the Society of Chemical Industry, 14-15 Belgrave Square, London SW1X 8PS. All orders, accompanied with payment, should be sent directly to the Society of Chemical Industry, The Distribution Centre, Blackhorse Road, Uxbridge, Herts SG6 1HN, England. Annual subscription rate for 1989: UK £128.00 Rest of the world (excl Japan) £152.00, USA \$245.00. Air freight and mailing in the USA by Publications Expediting Inc, 200 Meacham Avenue, Elmont, New York 11003. USA Postmaster: send address changes to Chemistry and Industry, Publications Expediting Inc, 200 Meacham Avenue, Elmont, New York 11003. Second class postage paid at Jamaica, New York 11431. All other despatches outside the UK by bulk airmail within Europe, accelerated surface post outside Europe. Printed in the UK by Strange the Printer Limited, Stratfield Road, Heathfield, East Sussex TN21 8HX, and at Granville House, 112 Bermondsey Street, London SE1 3TX.
