CHEMISTRY & INDUSTRY

NUMBER 22, PAGES 733-768 20 NOVEMBER 1989

NEWS

Climate research gets money... Towards the factory of the future...
 Bromate banned in flour... New food directorate...
 Recruitment problems... Drug firms concerned about NHS plans...
 CEST sticks to it... Hoechst has gene problems... ICI sells
 wafers... Johnson recycles PET... ICI superconductors...
 Manchester polymer science...

734

NEWS REPORTS

Crop protection

Ferry Biedermann samples some of the latest research
 of the IACR.

739

Polypropylene

Colleen Shannon reports from Madrid on the PRI's recent
 conference.

740

ECMRA

Ferry Biedermann continues his report from the European
 Chemical Marketing Research Association meeting.

741

Green consumers

Two views on greenery: Julian Rose dips into reports from the
 Institute of Economic Affairs and Friends of the Earth.

742

Chemical weapons

Lois Ember tries to unravel George Bush's
 chemical weapons policy.

743

Antidepressants

Trevor Laird describes how heterocyclics are being used to treat
 mental illness.

744

Conductive polymers

Joseph Alper reports on some of the new applications for these
 materials.

746

UK chemical trade

John Aczel discusses the UK chemical industry's import and export
 performance for the first half of 1989.

748

SCI EUROPEAN MEETING

Globalisation of the Japanese Chemical Industry

The president of Dainippon Ink & Chemicals,
 Shigekuni Kawamura, describes the thinking
 behind his company's takeovers of Sun
 Chemical and Reichhold, and discusses the
 factors that will affect restructuring and
 globalisation of the Japanese chemical
 industry.

750

Three Tests for Chemistry

Frank Popoff, president of Dow Chemical, proposes three tests for the
 chemical industry to determine whether it is growing, how it is seen by
 the public and how it will meet future challenges.

753

The European Chemical Industry after 1992: Crafting a Mosaic

In the 1990s, Antonio Lorenzo Necci, president of EniMont argues,
 European chemical companies must move away from parochial
 national thinking and fuse all that is best in European business.

757

COMMUNICATIONS TO THE EDITOR

Synthesis of trimethylsilyl dienol ethers from carboxylic acids.

*Teruhiko Inaba, Shoji Watanabe, Masami Sakamoto and Tsutomu
 Fujita*

763

HIGHLIGHTS

Biologically useful calcium-binding chelates... switchable ligands...
 forming glycol side linkages... and copper allenates... *ortho*
 functionalisation of phenols... iron-imidazole binding in
 haemoproteins... solving polyacetylene production problems...
 palytoxin synthesis... understanding permanganate mediated
 bishydroxylation... water soluble zerovalent palladium and platinum
 complexes... pita bread complexes.

Chemistry and Industry

(ISSN 0009-3068) is published semi-monthly by the Society of Chemical Industry, 14-15
 Belgrave Square, London SW1X 8PS. All orders, accompanied with payment, should be sent
 directly to the Society of Chemical Industry, The Distribution Centre, Bluckhorse Road,
 Letchworth, Herts SG6 1HN, England. Annual subscription rate for 1989: UK £128.00 Rest of
 the world (excl Japan) £152.00, USA \$245.00. Air freight and mailing in the USA by
 Publications Expediting Inc, 200 Meacham Avenue, Elmont, New York 11003. USA Postmaster:
 send address changes to Chemistry and Industry, Publications Expediting Inc, 200 Meacham
 Avenue, Elmont, New York 11003. Second class postage paid at Jamaica, New York 11431. All
 other despatches outside the UK by bulk airmail within Europe, accelerated surface post outside
 Europe. Printed in the UK by Strange the Printer Limited, Streetfield Road, Heatfield, East
 Sussex TN21 8HX, and at Granville House, 112 Bermondsey Street, London SE1 3TX.
