ATMOSPHERIC ENVIRONMENT

Special Issue: Bay Region Atmospheric Chemistry Experiment (BRACE)

Guest Editors

T. Atkeson, H. Greening and N. Poor

CONTENTS

Bay Region Atmospheric Chemistry Experiment (BRACE)

Guest Editors

T. Atkeson, H. Greening and N. Poor

- | | |
|--|---|
| T. Atkeson, H. Greening and N. Poor | 4163 Bay Region Atmospheric Chemistry Experiment (BRACE) |
| R.L. Gunter | 4165 Assessment of boundary layer variations in the Tampa Bay Area during the Bay Region Atmospheric Chemistry Experiment (BRACE) |
| W.T. Luke, J.R. Arnold, R.L. Gunter, T.B. Watson, D.L. Wellman, P.K. Dasgupta, J. Li, D. Riemer and P. Tate | 4177 The NOAA Twin Otter and its role in BRACE: Platform description |
| W.T. Luke, J.R. Arnold, T.B. Watson, P.K. Dasgupta, J. Li, K. Kronmiller, B.E. Hartsell, T. Tamanini, C. Lopez and C. King | 4190 The NOAA Twin Otter and its role in BRACE: A comparison of aircraft and surface trace gas measurements |
| J.R. Arnold, B.E. Hartsell, W.T. Luke, S.M.R. Ullah, P.K. Dasgupta, L.G. Huey and P. Tate | 4210 Field test of four methods for gas-phase ambient nitric acid |
| J.R. Arnold and W.T. Luke | 4227 Nitric acid and the origin and size segregation of aerosoles, nitrate aloft during BRACE 2002 |
| P.K. Dasgupta, S.W. Campbell, R.S. Al-Horr, S.M.R. Ullah, J. Li, C. Amalfitano and N.D. Poor | 4242 Conversion of sea salt aerosol to NaNO_3 and the production of HCl : Analysis of temporal behavior of aerosol chloride/nitrate and gaseous HCl/HNO_3 concentrations with AIM |
| P.K. Martinelango, P.K. Dasgupta and R.S. Al-Horr | 4258 Atmospheric production of oxalic acid/oxalate and nitric acid/nitrate in the Tampa Bay airshed: Parallel pathways |
| K.L. Kenty, N.D. Poor, K.G. Kronmiller, W. McClenney, C. King, T. Atkeson and S.W. Campbell | 4270 Application of CALINE4 to roadside NO/NO_2 transformations |
| S.M. Calderón, N.D. Poor and S.W. Campbell | 4281 Estimation of the particle and gas scavenging contributions to wet deposition of organic nitrogen |
| K. Sopkin, C. Mizak, S. Gilbert, V. Subramanian, M. Luther and N. Poor | 4291 Modeling air/sea flux parameters in a coastal area: A comparative study of results from the TOGA COARE model and the NOAA Buoy model |

For further information about this journal please go to the journal website at www.elsevier.com/locate/brace.

Journal of Great Lakes Research is intended for professionals involved in the fields of aquatic ecology, limnology, hydrology, marine science, environmental management, and related disciplines. It is a forum for the exchange of scientific information on the Great Lakes and their basin, and for the dissemination of practical information on management of the basin.

The journal does not publish manuscripts dealing with medical topics. It does not publish manuscripts dealing with topics of medical interest, unless they are of exceptional interest to the Great Lakes basin.
