

# automatica

A Journal of **IFAC** the International  
Federation of Automatic Control

Volume 37 Number 7

July 2001

## CONTENTS

### REGULAR PAPERS

- |   |      |   |
|---|------|---|
| P. Chen, H. Qin and J. Huang                        | 969  | <b>Local stabilization of a class of nonlinear systems by dynamic output feedback</b>   |
| P. R. Pagilla and M. Tomizuka                       | 983  | <b>An adaptive output feedback controller for robot arms: stability and experiments</b>   |
| J.-X. Xu and W.-J. Cao                              | 997  | <b>Learning variable structure control approaches for repeatable tracking control tasks</b>                                       |
| K. Najim, A. S. Poznyak and E. Gomez                | 1007 | <b>Adaptive policy for two finite Markov chains zero-sum stochastic game with unknown transition matrices and average payoffs</b> |
| L. Chisci, J. A. Rossiter and G. Zappa              | 1019 | <b>Systems with persistent disturbances: predictive control with restricted constraints</b>                                       |
| L. Xu and B. Yao                                    | 1029 | <b>Output feedback adaptive robust precision motion control of linear motors</b>  |
| <b>BRIEF PAPERS</b>                                 |      |   |
| D. A. Lawrence                                      | 1041 | <b>Analysis and design of gain scheduled sampled-data control systems</b>   |
| B. De Schutter and T. van den Boom                  | 1049 | <b>Model predictive control for max-plus-linear discrete event systems</b>  |
| M. Egerstedt and C. F. Martin                       | 1057 | <b>Optimal trajectory planning and smoothing splines</b>  |
| H. Y. Zhang, C. W. Chan, K. C. Cheung and Y. J. Ye  | 1065 | <b>Fuzzy artmap neural network and its application to fault diagnosis of navigation systems</b>                                   |
| M. Valečková, M. Kárný and E. L. Souto              | 1071 | <b>Bayesian M-T clustering for reduced parameterisation of Markov chains used for non-linear adaptive elements</b>                |
| U. Soverini and S. Beghelli                         | 1079 | <b>Identification of static errors-in-variables models: the rank reducibility problem</b>   |
| W. P. M. H. Heemels, B. De Schutter and A. Bemporad | 1085 | <b>Equivalence of hybrid dynamical models</b>   |
| W. Lin and C. Qian                                  | 1093 | <b>Semi-global robust stabilization of MIMO nonlinear systems by partial state and dynamic output feedback</b>                    |
| D. Angeli   | 1103 | <b>Almost global stabilization of the inverted pendulum via continuous state feedback</b>   |
