## Special Issue: Selected Papers from the 9th Conference on Process Integration, Modelling and Optimisation for Energy Saving and Pollution Reduction – PRES2006

### Editorial

- |   |      |  |
|---|------|--|
| J. KLEMEŠ and P. STEHLÍK  | 2627 | Heat integration, energy management, CO <sub>2</sub> capture and heat transfer enhancement             |
| A. ASPELUND, D. O. BERSTAD and T. GUNDERSEN                         | 2633 | An Extended Pinch Analysis and Design procedure utilizing pressure based exergy for subambient cooling |
| M. PICÓN-NÚÑEZ, A. MORALES-FUENTES and E. E. VÁZQUEZ-RAMÍREZ        | 2650 | Effect of network arrangement on the heat transfer area of cooling networks                            |
| M. PFEFFER, W. WUKOVITS, G. BECKMANN and A. FRIEDL                  | 2657 | Analysis and decrease of the energy demand of bioethanol-production by process integration             |
| J. SÖDERMAN   | 2665 | Optimisation of structure and operation of district cooling networks in urban regions                  |
| D. C. A. MULLER, F. M. A. MARECHAL, T. WOLEWINSKI and P. J. ROUX    | 2677 | An energy management method for the food industry  |
| K. HIRATA, P. CHAN, K.-Y. CHEUNG, H. SAKAMOTO, K. IDE and C.-W. HUI | 2687 | Site-model utility system optimisation – Industrial case study of KKEPC                                |
| M. KANNICHE and C. BOUALLOU   | 2693 | CO <sub>2</sub> capture study in advanced integrated gasification combined cycle                       |
| F. PALAZZI, N. AUTISSIER, F. M. A. MARECHAL and D. FAVRAT           | 2703 | A methodology for thermo-economic modeling and optimization of solid oxide fuel cell systems           |
| L. LIEBENBERG and J. P. MEYER                                       | 2713 | In-tube passive heat transfer enhancement in the process industry                                      |
| M. ŠARLEJ, P. PETR, J. HÁJEK and P. STEHLÍK                         | 2727 | Computational support in experimental burner design optimisation                                       |
| D. J. KUKULKA and M. DEVGUN   | 2732 | Fluid temperature and velocity effect on fouling   |
