Volumé 32, numéro 3, juin 2005

## Construction engineering

ARTICLES

Ji Li, Osama Moselhi, and Sabah Alkass 500-516

Jong H. Ock, Seung H. Han,  
Hyung K. Park, and James E. Diekmann 517-532

Lingguang Song, Hussien T. Al-Battaineh,  
and Simaan M. AbouRizk 533-542

## Engineering materials

ARTICLE

Marc-André Bérubé, Nizar Smaoui,  
Benoit Fournier, Benoit Bissonnette, and  
Benoit Durand 463-479

## Hydrotechnical engineering

ARTICLE

C. Marche et Anne Oriac 543-552

## Structural engineering

ARTICLES

M.D. Pandey, V. Ho, S. Bedi,  
and S.B. Woodward 480-489

Ömer Akgiray 490-499

M. Reza Esfahani, M. Reza Kianoush,  
and M. Lachemi 553-560

Robert Tremblay, Sina Merzouq,  
Carmen Izvernari, and  
Krasimira Alexieva 561-568

## Ingénierie de la construction

ARTICLES

A reasoning process in support of integrated project control

Improving decision quality: a risk-based go/no-go decision for build-operate-transfer (BOT) projects

Modeling uncertainty with an integrated simulation system

## Matériaux d'ingénierie

ARTICLE

Evaluation of the expansion attained to date by concrete affected by alkali-silica reaction. Part III: Application to existing structures

## Hydraulique

ARTICLE

Évaluation des conséquences de rupture d'un barrage : calculs détaillés ou méthode simplifiée ?

## Ingénierie des structures

ARTICLES

Development of a condition assessment model for transmission line in-service wood crossarms

Explicit solutions of the Manning equation for partially filled circular pipes

Bond strength of glass fibre reinforced polymer reinforcing bars in normal and self-consolidating concrete

Application of the equivalent static force procedure for the seismic design of multistorey buildings with vertical mass irregularity

*Continued on inside back cover / Suite au verso*

Front cover: Lining of the downstream face of Leithen dam in Austria by pyramids (see Manso and Schleiss in the October 2002 issue, pp. 762-776).

Page couverture : Revêtement de la face en aval de la digue de Leithen (Autriche) par des pyramides (voir Manso et Schleiss dans le numéro d'octobre 2002, pp. 762-776).
