AVIATION WEEK & SPACE TECHNOLOGY

HEADLINE NEWS

Airlines opt for EGPWS installation fleet-wide
Air Transport Assn. members commit to use advanced warning system before FAA mandates it **8**

TRW, ICO end Odyssey lawsuit
TRW will abandon Odyssey satellite project and receive stake in competing system led by ICO **8**

Lockheed Martin deal enters crucial phase
U.S. Justice Dept. views radar and EW businesses as sources of potential antitrust problems **9**

F-117A downed by missing fasteners
Report also finds required inspection of those fasteners was missed before air show crash **10**

UAE in Mirage 2000-9 buy
Will also modernize 33 Mirage 2000 SAD8s in service **10**

MGS eludes dust storm
Being eased back to its standard aerobraking altitude **11**

Cathay pauses on options
Continues to feel effects of declining economy in Hong Kong **11**

Saab to cease production of regional turboprops
Will focus on role as contractor for other manufacturers and potential partner in collaborative programs **12**

EDITORS' PERSPECTIVES

NASA's paradoxical Daniel S. Goldin
If he were to leave today, he would long be remembered for his profound impact on space agency **95**

<http://www.awgnet.com>
Aviation Week's Web site offers selected articles from the current issue, as well as daily news updates, the Safety Resource Center, a gallery of photos and features from special issues. It's also a great jumping off spot for surfing to other aerospace sites. We're available on CompuServe, too; just GO AWG.

1997

Photo Contest Album opens on p. 14

Spooks—it's time for a revelation
Disclosure of intelligence budget has negligible impact on U.S. national security **96**

Hyping China threat is reckless policy
Threat-mongering ignores China as a strategic whole, fixes narrowly on Beijing's military development **97**

Cyber raid, Wall Street: This is no drill . . .
Most lucrative cyber war targets may be those with opportunities to bring Street to its knees **98**

Cultural concepts threaten France's aerospace industry
France should favor free enterprise, privatize companies and Air France, support alliances **98B**

Innovation least in danger as U.S. majors consolidate
Customers demand higher quality, faster delivery times and significant reduction in life-cycle costs **99**

Primary training—time for a proficiency check
Left-seat occupant is aviation safety's richest natural resource **100**
