Complexité biologique / *Biological complexity*

- Compte rendu du colloque organisé par l'Institut Jacques-Monod et parrainé par l'Académie des Sciences qui s'est tenu à l'Institut Jacques-Monod les 11 et 12 juin 2002
Jacques Ricard..... 131
- What do we mean by biological complexity?
Jacques Ricard..... 133
- Does the size of small objects influence chemical reactivity in living systems?
Albert Sanfeld, Albert Steinchen..... 141
- Biological processes in organised media
Michel Thellier, Jean-Claude Vincent, Stéphane Alexandre, Jean-Paul Lassalles, Brigitte Deschrevel, Victor Norris, Camille Ripoll 149
- Actin-based motility as a self-organized system: mechanism and reconstitution in vitro
Marie-France Carlier, Sebastian Wiesner, Christophe Le Clainche, Dominique Pantaloni..... 161
- Genetic regulation networks: circuits, regulons and attractors
Jacques Demongeot, Julio Aracena, Florence Thuderoz, Thierry-Pascal Baum, Olivier Cohen 171
- Stochastic models for circadian rhythms: effect of molecular noise on periodic and chaotic behaviour
Didier Gonze, José Halloy, Jean-Christophe Leloup, Albert Goldbeter 189
- Emergence of complex behaviour from simple circuit structures
Marcelle Kaufman, René Thomas 205
- Hardware (DNA) circuits
Richard D'Ari, René Thomas 215
- Separating objects and 'neural' computation
John J. Hopfield, Carlos D. Brody 219
- Complex pattern formation by a self-destabilization of established patterns: chemotactic orientation and phyllotaxis as examples
Hans Meinhardt 223
- On the mechanochemical theory of biological pattern formation with application to vasculogenesis
James D. Murray 239
