CHEMISTRY & INDUSTRY

NUMBER 3, PAGES 61-92

5 February 2001

Volcanoes have obscured global warming effects, p76

Activists: crusaders or terrorists? pp67 & 70

62 DIARY

63 NEWS

- ◆ GM marker genes brought under control
- ◆ Climate change: our worst fears confirmed
- ◆ Businesses yet to develop an understanding of sustainability
- ◆ Industry slowdown forecast for 2001

67 PHARMACEUTICAL INDUSTRY

Legitimate research forced into hiding

Have the protests that nearly brought Huntingdon Life Sciences to its knees served any purpose? Claire Curran reports.

69 AFTERWORDS

70 COMMENT

Intimidation and harassment

Jim Baxter details the constant worry of facing animal rights activists and explains why he still believes in the work he does.

72 PATENTS

73 AGRICULTURE

BSE: a post-industrial disease?

Hypotheses about the origin and behaviour of BSE and vCJD are taken as fact, but these certainties may be unfounded. Are we hindering the search for understanding? David R Brown says other factors should be investigated.

77 ENVIRONMENT

Lighting the way for bioremediation

Bioluminescent biosensors can determine the bioavailability of soil and water pollutants and could soon be widely used to monitor the remediation of contaminated land, according to Graeme I Paton.
