

**372 practice problems, with solutions,
to prepare you for the PE exam**

Practice Problems *for the* **Environmental Engineering PE Exam**

**A Companion to the
*Environmental Engineering Reference Manual***

Second Edition

Michael R. Lindeburg, PE

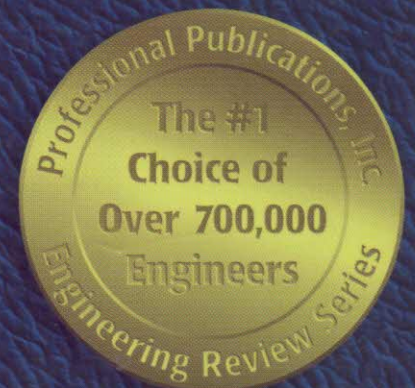

Table of Contents

Preface	vii	27. Activated Sludge and Sludge Processing	27-1
Acknowledgments	ix	28. Protection of Wetlands	28-1
Codes Referenced in This Manual	xi	29. Thermodynamic Properties of Substances	29-1
How to Use This Book	xiii	30. Changes in Thermodynamic Properties	30-1
Chapter		31. HVAC: Psychrometrics	31-1
1. Systems of Units	1-1	32. HVAC: Ventilation and Humidification Requirements	32-1
2. Properties of Areas	2-1	33. HVAC: Heating Load	33-1
3. Algebra	3-1	34. HVAC: Cooling Load	34-1
4. Linear Algebra	4-1	35. Air Conditioning Equipment	35-1
5. Vectors	5-1	36. Fans and Ductwork	36-1
6. Trigonometry	6-1	37. Fuels and Combustion	37-1
7. Analytic Geometry	7-1	38. Air Quality	38-1
8. Differential Calculus	8-1	39. Municipal Solid Waste	39-1
9. Integral Calculus	9-1	40. Environmental Pollutants (<i>no problems</i>)	
10. Differential Equations	10-1	41. Disposition of Hazardous Materials (<i>no problems</i>)	
11. Probability, Statistical Analysis of Data, and Risk Analysis	11-1	42. Environmental Remediation (<i>no problems</i>)	
12. Numerical Analysis	12-1	43. Organic Chemistry (<i>no problems</i>)	
13. Energy, Work, and Power	13-1	44. Biology and Bacteriology	44-1
14. Fluid Properties	14-1	45. Toxicology	45-1
15. Fluid Statics	15-1	46. Industrial Hygiene	46-1
16. Fluid Flow Parameters	16-1	47. Health and Safety	47-1
17. Fluid Dynamics	17-1	48. Biological Effects of Radiation	48-1
18. Hydraulic Machines and Equipment	18-1	49. Shielding	49-1
19. Open Channel Flow	19-1	50. Illumination and Sound	50-1
20. Meteorology, Climatology, and Hydrology	20-1	51. Emergency Management	51-1
21. Groundwater	21-1	52. Electrical Systems and Equipment	52-1
22. Inorganic Chemistry	22-1	53. Instrumentation and Digital Numbering Systems (<i>no problems</i>)	
23. Water Supply Quality and Testing	23-1	54. Engineering Economic Analysis	54-1
24. Water Supply Treatment and Distribution	24-1	55. Project Management	55-1
25. Wastewater Quantity, Quality and Testing	25-1	56. Engineering Law (<i>no problems</i>)	
26. Wastewater Treatment	26-1	57. Engineering Ethics (<i>no problems</i>)	
		58. Engineering Licensing in the United States (<i>no problems</i>)
