

The most comprehensive resource
available for the environmental PE exam

Environmental Engineering Reference Manual

for the PE Exam

Second Edition

Michael R. Lindeburg, PE

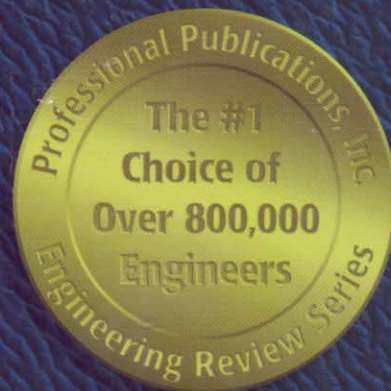

Table of Contents

Appendices Table of Contents	vii	HVAC: Ventilation and Humidification	
Preface	ix	Requirements	32-1
Acknowledgments	x	HVAC: Heating Load	33-1
Codes Used to Prepare This Book	xi	HVAC: Cooling Load	34-1
Introduction	xiii	Air Conditioning Equipment	35-1
Topic I: Background and Support		Fans and Ductwork	36-1
Systems of Units	1-1	Topic V: Air Resources #2: Combustion and	
Properties of Areas	2-1	Air Quality	
Algebra	3-1	Fuels and Combustion	37-1
Linear Algebra	4-1	Air Quality	38-1
Vectors	5-1	Topic VI: Solid and Hazardous Waste	
Trigonometry	6-1	Municipal Solid Waste	39-1
Analytic Geometry	7-1	Environmental Pollutants	40-1
Differential Calculus	8-1	Disposition of Hazardous Materials	41-1
Integral Calculus	9-1	Environmental Remediation	42-1
Differential Equations	10-1	Topic VII: Environmental Health, Safety,	
Probability, Statistical Analysis of Data, and		and Welfare	
Risk Analysis	11-1	Organic Chemistry	43-1
Numerical Analysis	12-1	Biology and Bacteriology	44-1
Energy, Work, and Power	13-1	Toxicology	45-1
Topic II: Water Resources #1: Flow of Fluids		Industrial Hygiene	46-1
Fluid Properties	14-1	Health and Safety	47-1
Fluid Statics	15-1	Biological Effects of Radiation	48-1
Fluid Flow Parameters	16-1	Shielding	49-1
Fluid Dynamics	17-1	Illumination and Sound	50-1
Hydraulic Machines and Equipment	18-1	Emergency Management	51-1
Open Channel Flow	19-1	Topic VIII: Systems, Management,	
Meteorology, Climatology, and Hydrology	20-1	and Professional	
Groundwater	21-1	Electrical Systems and Equipment	52-1
Topic III: Water Resources #2: Water and		Instrumentation and Digital Numbering	
Wastewater Treatment		Systems	53-1
Inorganic Chemistry	22-1	Engineering Economic Analysis	54-1
Water Supply Quality and Testing	23-1	Project Management	55-1
Water Supply Treatment and Distribution	24-1	Engineering Law	56-1
Wastewater Quantity and Quality	25-1	Engineering Ethics	57-1
Wastewater Treatment: Equipment and		Engineering Licensing in the United States	58-1
Processes	26-1	Topic IX: Support Material	
Activated Sludge and Sludge Processing	27-1	Appendices	A-1
Protection of Wetlands	28-1	Glossary	G-1
Topic IV: Air Resources #1: Ventilation		Index	I-1
Thermodynamic Properties of Substances	29-1		
Changes in Thermodynamic Properties	30-1		
HVAC: Psychrometrics	31-1
