# Environmental Concepts for the Automotive Industry

**SAE** SP-1542

# TABLE OF CONTENTS

<b>2000-01-0015 Development of Automotive Rubber Parts with New Recycling Technology .....</b>	<b>1</b>
S. Otsuka, M. Owaki and Y. Suzuki Toyota Motor Corp.	
H. Honda and K. Nakashima Toyoda Gosei Co., Ltd.	
M. Mouri and N. Sato Toyota Central Research and Development Labs. Inc.	
<b>2000-01-0016 Recycle Solutions That Make Environmental, Economic Sense .....</b>	<b>5</b>
Viktor Williams and Diane Richard DuPont	
<b>2000-01-0017 Implementation of Lead-Free Solder for Automotive Electronics .....</b>	<b>11</b>
Brenda B. Baney, Pascal Bezier, Michael S. Campbell, Richard D. Parker, Pamela A. Sneller, Delbert R. Walls, Matthew R. Walsh, Richard L. Whiteside and Gordon C. Whitten Delphi Automotive Systems	
<b>2000-01-0018 PAU System: A New Concept to Achieve Sustainability in Passenger Transportation .....</b>	<b>17</b>
J. Fernando Contadini and Deborah Salon Institute of Transportation Studies, University of California, Davis	
<b>2000-01-0020 Using a Manufacturing Process Classification System for Improved Environmental Performance .....</b>	<b>23</b>
Huanran Xue, A. Filipovic, S. M. Pandit and J. W. Sutherland Michigan Technological Univ. Walter W. Olsen The University of Toledo	
<b>2000-01-0021 Paint Usage Reduction in Automotive Paint Booths .....</b>	<b>31</b>
Ernest H. Tong and Thomas A. Loch Ford Motor Co.	
<b>2000-01-0022 Dry Turning of Manual Transmission Shafts .....</b>	<b>41</b>
Uwe Drews Ford Motor Company, Advanced Manufacturing Technology Development	
<b>2000-01-0024 From Painted "Scrap" To Painted Production Parts .....</b>	<b>45</b>
VeRonica Mitchell and Matt Carroll General Motors Corp.	
<b>2000-01-0594 3M Approach to Implementing Life Cycle Management .....</b>	<b>49</b>
Sheldon S. Lande and Donald R. Coy 3M Corporate Product Responsibility	

<b>2000-01-0595 A Life-Cycle-Based Environmental Evaluation: Materials in New Generation Vehicles .....</b>	<b>55</b>
Rajive Dhingra, Jonathan G. Overly and Gary A. Davis Center for Clean Products and Clean Technologies - University of Tennessee	
Sujit Das, Stan Hadley and Bruce Tonn Oak Ridge National Laboratory	
<b>2000-01-0596 Recycling Technology for Metallic Substrates: A Closed Cycle .....</b>	<b>67</b>
Clemens Hensel Demet Recycling AG Roman Konieczny and Rolf Brück Emitec GmbH	
<b>2000-01-0597 Life-Cycle Emissions of Alternative Fuels for Transportation: Dealing with Uncertainties .....</b>	<b>73</b>
J. Fernando Contadini, Robert M. Moore, Daniel Sperling and Meena Sundaresan Institute of Transportation Studies, University of California at Davis	
<b>2000-01-0663 The Contribution of Methanol (VOC) Emissions from Windshield Washer Fluid Use to the Formation of Ground-Level Ozone .....</b>	<b>81</b>
A. Carriere, C. Kaufmann and J. Shapiro Cantox Environmental Inc. P. Paine and J. H. Prinsen Environment Canada	
<b>2000-01-0664 An Effective Tool for Air Quality Assessment to Assist in Control Strategy Evaluation .....</b>	<b>89</b>
David S. DeWitt Honda Research and Development Americas, Inc. Gregory J. McRae and Clifton L. McLellan Reaction Design	
<b>2000-01-0666 Business Model Approach: Design "Versus" Economic Considerations for Automotive Recycling .....</b>	<b>97</b>
L. A. J. Harrison and G. N. Blount Coventry University	
<b>2000-01-0667 "Problems with Radioactive Sources in Recycled Metals" .....</b>	<b>103</b>
James G. Yusko PA Department of Environmental Protection	
<b>2000-01-0734 European Assessment of Plastics Waste from End-of-Life Vehicles: Current Situation and Forecast .....</b>	<b>113</b>
Michel Costes and Jean-Bruno Monteil Mavel	

<b>2000-01-0735</b>	<b>USCAR U.S. Field Trial for Automotive Polymers Recycling: Interim Findings .....</b>	<b>119</b>
	William W. Orr Ford Motor Co.	
<b>2000-01-0736</b>	<b>Profitable Recycling of Automotive Wiring Harnesses .....</b>	<b>133</b>
	Wolfgang Diegmann, Frank H. Adam and Ruediger Tiedeck Delphi Automotive Systems Werner Hoffmanns University of Wuppertal	
<b>2000-01-0738</b>	<b>Why Recycle? Demand Driven Recycling of Engineered Thermoplastics .....</b>	<b>139</b>
	Richard W. Kaskel, Jr. B&M Plastics, Inc.	
<b>2000-01-0739</b>	<b>Use of Raman Spectroscopy to Identify Automotive Polymers in Recycling Operations .....</b>	<b>143</b>
	Sumeet Kumar and Claudia M. Duranceau Ford Motor Co. Edward R. Grant SpectraCode, Inc. Claudia M. Duranceau Ford Motor Company	
<b>2000-01-0740</b>	<b>Analysis of Bumper Paint Removal and Development of Paint Removal Equipment .....</b>	<b>151</b>
	Atsushi Mizutani, Tsutomu Nishida and Hiroo Onodera Nissan Motor Co., Ltd. Takeo Takase Takase Synthesis Chemical Co., Ltd. Taiichi Hijikata and Toshihisa Komori Shintokogoi Co., Ltd.	
<b>2000-01-0741</b>	<b>Recycling Technology of Surface Material for Interior Trims .....</b>	<b>157</b>
	Chika Kako and Hideo Nishimura Toyota Motor Corp. Narihito Tatsuda, Kenzo Fukumori and Norio Sato Toyota Central Research and Development Labs., Inc. Masahiro Tai Kyowa Leather Cloth Co., Ltd.	
<b>2000-01-0743</b>	<b>Blending of Post Industrial ABS with PMMA for Automotive Use .....</b>	<b>163</b>
	Michelle J. Mikulec, Tony Brooks, J. Sutton, S. Schultz and J. Podolak Visteon, An Enterprise of Ford Motor Co.	

**2000-01-1091 Accepting the Challenge of Carpet Recycling ..... 171**

Donald R. Cartwright  
Wellman, Inc.

**2000-01-1093 Post-Consumer Plastic Fuel Tank Recycling ..... 173**

Pamela M. Graham  
Solvay Automotive, Inc.  
J. M. Yernaux, S. Dupont and Jean DeCannière  
Solvay Central Laboratory
