Biotechnology for Environmental Protection in the Pulp and Paper Industry

Springer

Contents

1	Introduction	1
2	Wood Pretreatment to Remove Toxic Extractives	13
3	Biopulping: a Less Polluting Alternative to CTMP	29
4	Pulp Bleaching with Xylanases	49
5	Pulp Bleaching with White Rot Fungi and Their Enzymes	65
6	Enzymatic Deinking	91
7	Treatment of Wastewaters with Anaerobic Technology	109
8	Decolorization and Detoxification of Bleached Kraft Effluents	141
9	Purification of Process Water In Closed-Cycle Mills	171
10	Management of Wastewater Treatment Sludges	209
11	Biofiltration of Exhaust Gases	239
	Subject Index	263
