

ENGINEERING SOLUTIONS TO INDUSTRIAL CORROSION PROBLEMS

**7-9 June 1993
Sandefjord, Norway**

Sponsored by
NACE International
Region Management Committee
Norsk Korrosjonsteknisk Forening (NKF)

Table of Contents*

Paper No. Paper Titles and Authors

Materials Selection and Engineering in Offshore Applications

- 1** Materials Selection Challenges in Marginal Developments - C.J. Houghton
- 2** Materials Selection Philosophy for Offshore Production Systems - R.E. Lye
- 3 Options for Mitigation of Internal Corrosion of Offshore Production Systems - R.D. Kane, S.M. Wilhelm, R.G. Asperger and M. Schofield
- 4 Corrosion Engineering in Offshore Applications - B. Singh, S. Donaldson and J. McKechnie
- 5 Hydrogen Absorption of Titanium Alloys During Cathodic Polarization - L. Lunde and R. Nyborg
- 6** Criteria for Selection of Stainless Steels - T. Rogne and J.M. Drugli
- 7 Corrosion Performance of 6% Molybdenum Alloys - J.R. Maurer
- 8 Influence of Asbestos-free Gaskets on Stainless Steel - L. Dahl and L. Lundgren
- 9** High Alloyed Stainless Steel for Chlorinated Seawater Applications - Critical Crevice Temperature - U. Steinsmo, T. Rogne and P.O. Gartland
- 10 Crevice Corrosion Resistance of Stainless Steels in Chlorinated Seawater - Laboratory Testing - P. Solheim
- 11 The Corrosion of a Modified Copper/Nickel Alloy (0.68% w/o Chromium) in Sulfide Polluted Seawater under Erosion Conditions (Impingement Attack) - J.N. Alhaji and M.R. Reda
- 12 Hydrogen Induced Cracking of AISI 4130 Steel after Laser Surface Hardening - S.L.I. Chan, C. Hsu, and C Chen
- 13 Electrochemical Behavior of Construction Materials Exposed to Dilute Sulfuric Acid at Elevated Temperatures - D.T. Nguyen and R.D. Daniels
- 14 New Speciality Materials for the Oil and Gas Industry - M. Jasner
- 15** New Alloys for Cost Effective Solutions in Sour Service - H.S. Ahluwalia, L.H. Flasche, I.J. Storey, K. Larsson
- 16 The Corrosion Properties of Super Duplex Stainless Steel with Tungsten - T. Kobayashi, K. Ogawa, M. Ueda, H. Okamoto

* Papers are numbered as paper number/page number

** Paper not available at time of printing

Table of Contents*

Paper No.	Paper Titles and Authors
17	The Superduplex Option for Deep Sour Gas and Oil Wells - M. Barteri and I. Nembrini
18**	High Mo Superaustenitic Stainless Steels for Offshore Applications; Corrosion Resistance of Welded Joints - M. Verneau, B. Bonnefois, F. Dupouiron and J. Charles
19	Mechanical Properties and Corrosion Resistance of a Centrifuged and Electron Beam Welded Corrosion Resistant Alloy - W. Kleeman and M. Ward
20	Corrosion-Wear Resistant Alloys for Chemical Pumps - V Fishman
Coatings, Cathodic Protection and Inhibitors	
21	Operational Experience of All Volatile Treatment in High Pressure Boilers in a Thermal Power Station - Ali Abdullah Al Owais, R.K. Nijhawan and P.K. Budhiraja
22**	Behaviour of Armco Iron in Sulphuric Acid Solutions Inhibited by Thiourea -P. Christiani, G. Rocchini and P. Spinelli
23	The Effect of Ultrasonic Agitation on Corrosion Resistance of Zinc Electrodeposits - P.B.S.N.V. Prasad, S. Ahila, R. Vasudevan and S.K. Seshadri
24	Developing Scale Inhibitor Dosage Models - R.J. Ferguson
25	The Performance of Putty Coatings on Metallic and Concrete Surfaces - E. Vasilescu, P. Drob and M. V. Popa
26	A New Approach to Surface Preparation on Offshore Oil and Gas Installations - A Case History - T. Rossland and J.R. Cavallo
27	Corrosion Protection of Topside Structures and Equipment on Fixed Offshore Platforms by Coatings - O. Corneliusen
28	A Corrosion Engineer's View of Tank Linings - R.R. Skabo
29**	Coating Deterioration - its Mechanism and how to Model it - T. Svartdal
30**	Factors Influencing the Rate of Cathodic Disbonding - U. Steinsmo and J.I. Skar
31**	A Look in to the Future for Environmentally Friendly High Performance Coatings for Offshore Structures in the North Sea - J. Holdhus

* Papers are numbered as paper number/page number

** Paper not available at time of printing

Table of Contents*

Paper No. Paper Titles and Authors

- 46 Non-Linear Finite Element Analysis and Microscopic Laminate Studies of the Oblation Process for FRP Tanks used in Corrosion Applications - A. Newberry
- 47 The Use of Fibre Reinforced Plastic Enclosures for Corrosion Control - J.H. Morgan
- 48 Rubber Concrete: New Type of Chemical Resistant Materials - O. Figovsky
- Corrosion and its Control in Reinforced Concrete Structures**
- 49 Effect of Electro-Chemical Treatment on Steel to Concrete Bond Strength - J.B. Miller and G. Nustad
- 50** Cathodic Protection of Steel Reinforced Marine Concrete Structures - A. Tvarusko
- 51** Factors Affecting the Potential Measurement of Reinforcing Bars: Critical Considerations about ASTM 876 - G. Casarini and S. Volonte
- 52 In-Situ Monitoring of Reinforcement in Concrete - R. Cigna, E. Proverbio and G. Familiari
- 53** Embedded Fiber Optic Corrosion Sensors for Civil Structures - P.L. Fuhr and D.R. Huston
- 54 Migration of Alkalies in Electro-Chemically Realkalised Concrete - L. Odden and J.B. Miller
