

**Proceedings of the
Institution of
Mechanical Engineers**

**Engineering Applications of
Computational Fluid Dynamics**

European Conference

Sponsored by the Energy and Thermofluid Mechanics Group
of the Institution of Mechanical Engineers

IMEchE 1993-5

Contents

C461/045	Visualization in CFD D M Causon	1
C461/014	Simulation of injection moulding of polymeric materials M D H Thomas, P C Dolbey and F Horsfall	17
C461/041	Transient flow in a load switched fluidic pulser D J Burt and J Stairmand	27
C461/005	The use of CFD for predicting the forces on paper in a high-speed printing press folder J Bennett, P R S White and A H Falkner	33
C461/035	Renormalization group theory based turbulence models and their applications to industrial problems H F Boysan	43
C461/020	The practical application of CFD to railway aerodynamics A P Gaylard and T Johnson	49
C461/004	Three-dimensional simulation of turbulent flow in a four-branch manifold H Fu, M Yianneskis and A P Watkins	59
C461/023	CFD study of air motion in a passenger car IDI diesel engine B J Somerville, S J Charlton and B Nasserri	69
C461/036	Application of CFD in the prediction of pressure losses in air cooling systems N I A Haidar and A J McCubbin	77
C461/043	CFD and alternative turbulence models applied to heat transfer and pressure drop performance in cross-corrugated heat exchangers M Ciofalo, M W Collins, J A Stasiek and P E Chew	85
C461/029	Mathematical modelling of industrial power condensers with an application to droplet erosion. E N Jal and H Tinoco	93
C461/044	Improvement of condenser performance using CFD N Rhodes and C R Marsland	109
C461/057	Transient fluid flow and heat transfer in an in-line tube bank S B Beale and D B Spalding	119
C461/050	CFD and the built environment – applications F Alamdari, P M Rose and M J Seymour	133
C461/019	Numerical modelling of three-dimensional turbulent flow in packaged air-conditioning units D H T Gotham, Z G Xu and M W Collins	143
C461/027	CFD modelling of a 200 kW biomass stove D Beedie, T O'Doherty and N Syred	151
C461/028	Gas-particle flow through bends S Jayanti, G F Hewitt, M J Mohideen, M J Wang and F Mayinger	161
C461/042	Modelling of a submicron dust separator A Hitchings, T O'Doherty, D M O'Doherty and N Syred	167
