ELSEVIER

SOCIÉTÉ DE CHIMIE THÉRAPEUTIQUE

# Sommaire

# Contents

## Reconnaissance moléculaire

- 3** *G. Grassy, A. Yasri, R. Buelow, M. Kaczorek, B. Calas*  
Reconnaissance moléculaire indirecte: In silico screening appliqué au design rationnel de nouveaux immunosuppresseurs
- 17** *W.G. Richards*  
New aspects of molecular similarity
- 23** *C. Thurieau*  
High-throughput screening: impact of technology on the discovery of bioactive substances
- 33** *J. Rebek, Jr.*  
Complementarity and self-complementarity in molecular recognition
- Leçon Paul Ehrlich 1997    Paul Ehrlich Lecture 1997**
- 41** *G. Folkers, F. Alber, B. Pilger, C. Wurth, L. Scapozza*  
Integrated approaches for the functional description of protein-ligand interaction complexes

## Asthme

- 49** *P.A. Bonnet, J. Bompard, O. Vitse, J.-R. Fabreguettes, V. Benezech, G. Subra, H. Viols, F. Laurent, A. Michel, R. Escale, J.-P. Chapat*  
Cyclic nucleotide phosphodiesterases inhibitors and bronchodilatation: the SCA40 case
- 61** *P. Devillier, N. Baccard*  
Anti-leukotrienes in asthma
- 101** *P. R. Bernstein*  
The challenge of drug discovery: the development of leukotriene antagonists
- 121** *C. Advenier, V. Lagente, E. Boichot, E. Naline, P. Vilain, X. Emonds-Alt*  
Tachykinin receptor antagonists and airway inflammation

## Diabète

- 139** *J. Duhault, E. Harley, M. Lonchamp, M. Feletou, S. Chamorro, E. Koenig-Berard*  
Retinal diabetic complications, mechanisms and potential targets
- 179** Subject index
- 180** Author index
