Preface to the Second Edition xi

Introduction to Data Acquisition

CHAPTER 1

Analog Signal Transducers

CHAPTER 2

- 2.1 Temperature Sensors 7
- 2.2 Optical Sensors 8
- 2.3 Force and Pressure Transducers 13
- 2.4 Magnetic Field Sensors 16
- 2.5 Ionizing Radiation Sensors 18
- 2.6 Position (Displacement) Sensors 19
- 2.7 Humidity Sensors 22
- 2.8 Fluid Flow Sensors 23
- 2.9 Fiber Optic Sensors 24
- 2.10 Other New Sensor Technologies 26

Analog Signal Conditioning

CHAPTER 3

- 3.1 Signal Conditioning Techniques 29
- 3.2 Analog Circuit Components 30
- 3.3 Analog Conditioning Circuits 37

## CHAPTER 4

**Analog/Digital Conversions**

- 4.1 Digital Quantities 51
- 4.2 Data Conversion and DACs 55
- 4.3 ADCs 62

## CHAPTER 5

**The PC**

- 5.1 IBM PC/XT/AT and Compatible Computers 80
- 5.2 The IBM PC/XT 81
- 5.3 The IBM PC/AT 89
- 5.4 BIOS 93
- 5.5 PCI and Other Local Buses 95
- 5.6 PC Peripherals 102

## CHAPTER 6

**Interfacing Hardware to a PC Bus**

- 6.1 I/O Data Transfers 108
- 6.2 Memory Data Transfers 110
- 6.3 A Simple, 8-Bit I/O Port Design 111
- 6.4 DMA 115
- 6.5 Wait State Generation 115
- 6.6 Analog Input Card Design 117
- 6.7 16-Bit Data Transfers on ISA Computers 118
- 6.8 Plug and Play 120
- 6.9 Interfacing to the PCI Bus 121

## CHAPTER 7

**Interfacing Software to the PC**

- 7.1 DOS-Based PC Software Layers 123
- 7.2 Software Interrupts 125
- 7.3 Polled versus Interrupt-Driven Software 128
- 7.4 Special DOS Programs 132
- 7.5 DOS 133
- 7.6 Overcoming DOS Memory Limitations 135
- 7.7 Protected-Mode Operating Systems 137

## CHAPTER 8

**Standard Hardware Interfaces**

- 8.1 Parallel versus Serial Digital Interfaces 142
- 8.2 Parallel Interfaces 144
- 8.3 Standard Serial Interfaces 163
- 8.4 PC Networks 184

## CHAPTER 9

**Data Storage and Compression Techniques**

- 9.1 DOS Disk Structure and Files 191
- 9.2 Common DOS File Types 195
- 9.3 Windows File Systems 199
- 9.4 Data Compression Techniques 202
- 9.5 Commercial Data Compression Software 221

## CHAPTER 10

**Data Processing and Analysis**

- 10.1 Numerical Representation 222
- 10.2 Data Analysis Techniques 229

## CHAPTER 11

**Commercial Data Acquisition Products**

- 11.1 Commercial Data Acquisition Hardware Products 252
- 11.2 Commercial Data Acquisition Software Products 277
- 11.3 How to Choose Commercial Data Acquisition Products 302

## CHAPTER 12

**Other PC Configurations and Hardware for Data Acquisition**

- 12.1 Alternative PC Architectures and Processors 304
- 12.2 Notebook PCs and PCMCIA Cards 312
- 12.3 Industrial and Embedded PCs 314
- 12.4 Image Capture Products 322

CHAPTER **13**

**Computer Programming Languages** \_\_\_\_\_

- 13.1 Popular Programming Languages 330
- 13.2 Programming for Microsoft Windows 352
- 13.3 Considerations for Writing Computer Programs 357

CHAPTER **14**

**PC-Based Data Acquisition Applications** \_\_\_\_\_

- 14.1 Ultrasonic Measurement System 362
- 14.2 Electrocardiogram Measurement System 369
- 14.3 Commercial Equipment Using Embedded PCs 374
- 14.4 Future Trends in PC-Based Data Acquisition 383

APPENDIX

**Data Acquisition and Related** \_\_\_\_\_

**PC Product Manufacturers** 385

**Bibliography** 401

**Index** 405
