APPLICATIONS OF SOLID PHASE MICROEXTRACTION

Edited by Janusz Pawliszyn

Contents

Glossary

xvii

Calibration and Quantitation by SPME

Chapter 1	Quantitative Aspects of SPME <i>Janusz Pawliszyn</i>	3
Chapter 2	Quantitation by SPME before Reaching a Partition Equilibrium <i>Jiu Ai</i>	22

Coatings and Interfaces

Chapter 3	SPME Coupled to Capillary Electrophoresis <i>Chen-Wen Whang</i>	41
Chapter 4	Selectivity in SPME <i>Shu Li and Stephen G. Weber</i>	49
Chapter 5	Properties of Commercial SPME Coatings <i>Venkatachalam Mani</i>	57
Chapter 6	Sol-Gel Technology for Thermally Stable Coatings in SPME <i>Abdul Malik and Sau L. Chong</i>	73
Chapter 7	Solid versus Liquid Coatings <i>Tadeusz Górecki</i>	92

Physicochemical Applications

Chapter 8	Application of SPME to Study Sorption Phenomena on Dissolved Humic Organic Matter <i>Frank-Dieter Kopinke, Jürgen Pörschmann and Anett Georgi</i>	111
------------------	--	-----

Chapter 9	The Use of SPME to Measure Free Concentrations and Phospholipid/Water and Protein/Water Partition Coefficients <i>Wouter H.J. Vaes, Eñaut Urrestarazu Ramos, Karin C.H.M. Legierse and Joop L.M. Hermens</i>	129
Chapter 10	Estimation of Hydrophobicity of Organic Compounds <i>Albrecht Paschke and Peter Popp</i>	140
Environmental Applications		
Chapter 11	Air Sampling with SPME <i>Perry A. Martos</i>	159
Chapter 12	The Application of SPME in Water Analysis <i>Christoph Grote and Karsten Levsen</i>	169
Chapter 13	The Application of SPME to Pesticide Residue Analysis <i>Stephen J. Crook</i>	188
Chapter 14	Inter-laboratory Validation of SPME for the Quantitative Analysis of Aqueous Samples <i>Torben Nilsson and Tadeusz Górecki</i>	201
Chapter 15	SPME for the Determination of Organochlorine Pesticides in Natural Waters <i>Kok Kay Chee, Ming Keong Wong and Hian Kee Lee</i>	212
Chapter 16	Determination of Sulfur-containing Compounds in Wastewater <i>Peter Popp, Monika Möder and Imelda McCann</i>	227
Chapter 17	Analysis of Creosote and Oil in Aqueous Contaminations by SPME <i>Sys Stybe Johansen</i>	238
Chapter 18	Direct Analysis of Solids Using SPME <i>John R. Dean and P. Hancock</i>	248
Chapter 19	Analysis of Solid Samples by Hot Water Extraction–SPME <i>Hiroyuki Daimon</i>	258
Chapter 20	Field Analysis by SPME <i>Laura Müller</i>	269

Chapter 21	Organometallic Speciation by Combining Aqueous Phase Derivatization with SPME–GC–FPD–MS <i>Josep M. Bayona</i>	284
Chapter 22	Metal Speciation by SPME–CGC–ICPMS <i>Tom De Smaele, Luc Moens, Richard Dams and Pat Sandra</i>	296
Chapter 23	The Application of SPME–LC–MS to the Determination of Contaminants in Complex Environmental Matrices <i>Monika Möder and Peter Popp</i>	311
Chapter 24	SPME–HPLC of Environmental Pollutants <i>Anna A. Boyd-Boland</i>	327
Chapter 25	Analysis of Industrial Pollutants in Environmental Samples <i>Emilio Benfenati, Laura Müller, L. Perani and P. Pierucci</i>	333
 Food, Flavour, Fragrance and Pheromone Applications		
Chapter 26	Analysis of Food and Plant Volatiles <i>Adam J. Matich</i>	349
Chapter 27	Application of SPME to Measure Volatile Metabolites Produced by <i>Staphylococcus carnosus</i> and <i>Staphylococcus xylosus</i> <i>Régine Talon and M.C. Montel</i>	364
Chapter 28	Application of SPME Methods for the Determination of Volatile Wine Aroma Compounds in View of the Varietal Characterization <i>Demetrio De la Calle García and Manfred Reichenbacher</i>	372
Chapter 29	Analysis of Vodkas and White Rums by SPME–GC–MS <i>Lay-Keow Ng</i>	393
Chapter 30	Analysis of Food Volatiles Using SPME <i>Terry J. Braggins, Casey C. Grimm and Frank R. Visser</i>	407
Chapter 31	Analysis of Volatile Contaminants in Foods <i>B. Denis Page</i>	423
Chapter 32	Determination of Pesticides in Foods by Automated SPME–GC–MS <i>Ke-Wu Yang, Ralf Eisert, Heather Lord and Janusz Pawliszyn</i>	435

- Chapter 33** SPME in the Study of Chemical Communication in Social Wasps 448
Gloriano Moneti, G. Pieraccini, M. Sledge and S. Turillazzi

Pharmaceutical, Clinical and Forensic Applications

- Chapter 34** Propyl Chloroformate Derivatisation and SPME–GC for Screening of Amines in Urine 461
Mette Krogh, Stig Pedersen-Bjergaard and Knut E. Rasmussen
- Chapter 35** Isolation of Drugs and Poisons in Biological Fluids by SPME 470
Takeshi Kumazawa, Xiao-Pen Lee, Keizo Sato and Osamu Suzuki
- Chapter 36** On-fiber Derivatization for Analysis of Steroids by SPME and GC–MS 486
Nicholas H. Snow
- Chapter 37** SPME–Quadrupole Ion Trap Mass Spectrometry for the Determination of Drugs of Abuse in Biological Matrices 497
Brad J. Hall and Jennifer S. Brodbelt
- Chapter 38** Analysis of Drugs in Biological Fluids Using SPME 510
Akira Namera, Mikio Yashiki and Tohru Kojima
- Chapter 39** SPME–Microcolumn LC: Application to Toxicological Drug Analysis 527
Kiyokatsu Jinno, Masahiro Taniguchi, Hirokazu Sawada and Makiko Hayashida
- Chapter 40** Optimization of Drug Analysis by SPME 540
Heather Lord
- Chapter 41** Applications of SPME for the Biomonitoring of Human Exposure to Toxic Substances 557
Maurizio Guidotti and Matteo Vitali
- Chapter 42** Applications of SPME in Criminal Investigations 573
Tsuyoshi Kaneko

Reaction Monitoring

- Chapter 43** SPME–GC–MS Detection Analysis of Maillard Reaction Products 585
W.M. Coleman, III
- Chapter 44** SPME Investigation of Intermediates Produced during Biodegradation of Contaminated Materials 609
Jalal A. Hawari

Related Techniques

- Chapter 45** Infrared Spectroscopic Detection for SPME 625
Danese C. Stahl and David C. Tilotta
- Chapter 46** SPME in Near-IR Fiber-optic Evanescent Field Absorption Spectroscopy: A Method for Rapid, Remote *In situ* Monitoring of Nonpolar Organic Compounds in Water 638
Jochen Bürck
