Arcler Press publishes wide variety of books and eBooks. For more information about Arcler Press and its products, visit our website at www.arclerpress.com

TABLE OF CONTENTS

<i>List of Figures</i>	<i>xi</i>
<i>List of Tables</i>	<i>xiii</i>
<i>Preface</i>	<i>xv</i>
Chapter 1 Introduction to Water Resource Management and Flood.....	1
Introductory Example.....	2
Unit Introduction.....	2
1.1. Understanding Water Resource Management.....	3
1.2. Historical Context and Evolution of Water Management.....	7
1.3. Understanding Floods.....	14
1.4. Importance of Flood Control.....	19
Summary.....	21
Review Questions.....	21
Multiple Choice Questions.....	22
References.....	23
Chapter 2 Types of Water Resources and Management.....	29
Introductory Example.....	30
Unit Introduction.....	30
2.1. Natural Sources of Fresh Water.....	31
2.2. Artificial Sources of Usable Water.....	32
2.3. Ground Water Resources.....	35
Summary.....	41
Review Questions.....	41
Multiple Choice Questions.....	41
References.....	42

Chapter 3	Hydrology Principals and Processes.....	47
	Introductory Example.....	48
	Unit Introduction.....	48
	3.1. Essentials of Hydrology.....	49
	3.2. Precipitation (Rainfall).....	54
	3.3. Evaporation.....	58
	3.4. Percolation and Groundwater.....	65
	Summary.....	66
	Review Questions.....	66
	Multiple Choice Questions.....	66
	References.....	67
Chapter 4	Flood Risk Assessment and Management.....	73
	Introductory Example.....	74
	Unit Introduction.....	74
	4.1. Terms and Concepts.....	75
	4.2. Tasks and Components.....	80
	4.3. Flood Risk Management Process.....	89
	4.4. Challenges for Research and Development.....	93
	Summary.....	95
	Review Questions.....	95
	Multiple Choice Questions.....	96
	References.....	97
Chapter 5	Flood Control Measures and Management.....	105
	Introductory Example.....	106
	Unit Introduction.....	106
	5.1. Floodplain Management.....	107
	5.2. Structural and Nonstructural Methods of Flood Control.....	115
	5.3. Flood Damage and Net Benefit Estimation.....	124
	Summary.....	130
	Review Questions.....	130
	Multiple Choice Questions.....	131
	References.....	132

Chapter 6	Flood Forecasting, Warning, and Flood Fighting	139
	Introductory Example.....	140
	Unit Introduction	140
	6.1. Forecasting Procedures and Techniques	142
	6.2. Runoff From Rainfall Data Determination	143
	6.3. Forecasting Stages Methods	145
	6.4. Flood Warning.....	148
	6.5. Engineering Measures for Flood Fighting.....	150
	Summary	152
	Review Questions.....	152
	Multiple Choice Questions	153
	References	154
Chapter 7	Integrated Water Resource Management	159
	Introductory Example.....	160
	Unit Introduction	160
	7.1. Integrated Water Resource Management.....	161
	7.2. Economic Dimension of Water	167
	7.3. Water Management as a Public Good and Eco-Hydrology	172
	7.4. Groundwater Management.....	176
	Summary	183
	Review Questions.....	183
	Multiple Choice Questions	184
	References.....	185
Chapter 8	Climate Change Impact and GIS Applications in Water Resources	191
	Introductory Example.....	192
	Unit Introduction	192
	8.1. Climate Change	193
	8.2. Climate Change Impact on Water Resources.....	196
	8.3. Application of GIS in Water Resources and Flood	207
	Summary	217
	Review Questions.....	217
	Multiple Choice Questions	218
	References	219
	 Index.....	 225
