IN BRIEF... IN BRIEF... IN BRIEF...

PROSTATIC CANCER

ANALYSIS OF THE MOST RELEVANT PAPERS
PUBLISHED IN
THE INTERNATIONAL
LITERATURE

3

OCTOBER, 1984

IFSI

English Edition

CONTENTS

REVIEW ARTICLES

● Prostatic Cancer : the Scandinavian Experience	10
● Treatment of Localized Prostatic Cancer	13
● Stage D1 Carcinoma of the Prostate	16
● Immunotherapy of Prostatic Carcinoma	19
● Interferon and Prostatic Cancer	21
● Cryotherapy	24
● Radiation-Associated Impotence	27
● Carcinoma of the Prostate : Clinical Significance of Post-Irradiation Biopsy	29
● Combination Chemotherapy for Prostatic Cancer	33
● Cooperative Clinical Trials of the National Prostatic Cancer Project : Protocol 900	37
● National Prostatic Cancer Project (NPCP) Criteria for Determination of Response to Therapy.	41

REVIEW OF THE LITERATURE

BASIC RESEARCH

● Comparison of Androgen Receptor Levels in the Dunning R3327 Rat Prostate Tumor Sublines : Considerations with regard to Androgen Responsi- veness.	44
● Tumor Detection by Water Proton Nuclear Magnetic Resonance Times in the Dunning R3327 Rat Prostatic Adenocarcinoma System	45
● Enzymatic Profiles in Normal, Hyperplastic and Malignant Human Prostate	46

DIAGNOSIS - BIOCHEMISTRY

- The Role of Serum Prostatic Acid Phosphatase as a Tumor Marker in Men with Advanced Adenocarcinoma of the Prostate 48
- A Human Monoclonal Antibody Reactive with Prostate 49
- Analysis of the Specificity and Reactivity of Monoclonal Antibodies directed against Carcinoma of the Prostate 50

DIAGNOSIS - HISTOLOGY - RADIOLOGY

- Should Aspiration Cytology be the Method of Choice for Diagnosing Prostatic Cancer? 52
- The Utilization of Fine Needle Aspiration Cytology (FNAC) in the Diagnosis of Prostatic Adenocarcinoma 53
- Prostatic Carcinoma. A New Grading System Based on a Multi-variate Analysis of Architecture, Nuclear Anaplasia and Mitoses 54
- Flow Cytometric Analysis of DNA Content per cell in Untreated Human Prostatic Carcinomas 55
- The Application of Automated Cytometry to the Grading of Human Prostate Cancer 56
- Prostate Needle Biopsy for Chemosensitivity Testing 57
- Incidence of Vascular Invasion in Prostatic Carcinoma and its Correlation with Metastasis : an Application of the Lectin-Immunoperoxidase Endothelium Staining Technique 58
- Immunoperoxidase Delineation of Undifferentiated Carcinomas Arising in Prostate Gland and Urinary Bladder 59
- Nuclear Magnetic Resonance (NMR). Imaging of the Prostate 60
- The Importance of Transrectal Sonography and Sonometrics of the Prostate for Diagnosis and Follow-up in Prostatic Carcinoma 61

SURGERY

- Radical Retropubic Prostatectomy in Stage A2 Prostate Cancer 64
- Efficacy of Radical Prostatectomy in Stage A2 Carcinoma of the Prostate 65
- Radical Prostatectomy versus Radiotherapy in Prostatic Cancer 66
- A Comparison of Morbidity of Pelvic Lymphadenectomy with Radical Prostatectomy versus Lymphadenectomy Alone 67
- Perineal Prostatectomy after Radiotherapy of Carcinoma 68
- Salvage Surgery Following Radical Radiotherapy for Adenocarcinoma of the Prostate 69

HORMONE THERAPY

- Early Orchiectomy for Patients with Node Positive Prostatic Carcinoma 72
- Polyestradiol Phosphate (Estradurin) as Single Treatment of Prostatic Carcinoma 73
- Treatment of Stage D Prostatic Cancer with Aminoglutethimide 74
- Ketoconazole is Effective in the Treatment of Advanced Human Prostatic Cancer 75
- Final Analysis of EORTC Trial 30761 Concerning Treatment of Advanced Prostatic Cancer with Different Anti-Androgenic Hormones 76
- Aspiration Cytology of Prostatic Carcinoma Following Endocrine Therapy .. 77
- DES and Leuprolide in the Treatment of Metastatic Carcinoma of the Prostate 78
- A Comparison of Prostatic Cancer Treated with GnRH or DES 79
- Treatment of Advanced Prostatic Cancer (PCA) with an LHRH-Analogue, Buserelin (HOE 766) : A Phase II Trial 80
- Safe and Non-toxic Palliation of Prostatic Cancer with Gonadotropin-Releasing Hormone Analogue Buserelin : 30 Months Experience with 51 Patients 81
- Long Term Effects of a GnRH Analogue in Patients with Metastatic Carcinoma of the Prostate 82

CHEMOTHERAPY

- Intra-arterial Cisplatin (IA-DDP) : Therapy for Radiorecurrent Carcinoma of the Prostate 84

ESTRAMUSTINE PHOSPHATE

- Effect of Previous Treatment on Estracyt Response in Advanced Stage D Prostatic Carcinoma 86
- Estramustine Phosphate as Primary Therapy for Metastatic Prostate Cancer. Preliminary Results of the University of Wisconsin Trial 88
- Clinical Toxicity and Long-term Results of Emcyt Therapy for Prostate Cancer 90
- Estramustine Phosphate in Prostate Cancer. EORTC Experience : Preliminary Results of Protocol 30762 92
- Metabolites of Estramustine Phosphate and Estramustine Binding Protein in Prostatic Carcinomatous Tissue from Patients Treated with Emcyt 94

RADIATION THERAPY

- Carcinoma of the Prostate : an Update of Treatment with External Radiotherapy 96
- Megavoltage External Beam Radiation Therapy for Stage B Adenocarcinoma of the Prostate 97
- Combined Interstitial and External Beam Radiation for Prostatic Carcinoma. Nodal Status and Survival 98
- The Effect of Pre-operative Transurethral Prostatectomy and the Complication of 125 Iodine Implantation in Patients with Clinically Localized Prostatic Carcinoma 99
- Major Rectal Complications Following Interstitial Implantation of I-125 Seeds in Prostate Cancer 100
- Transrectal Ultrasound Assessment of Prostatic Cancer Treated by Radiation Therapy 101
- Fine Needle Aspiration Biopsy of the Prostate after Radiotherapy 102

PROGNOSIS - MISCELLANEOUS

- Prognostic Significance of Pelvic Lymphadenectomy in Cancer of the Prostate 104
- The Prognostic Significance of Enzymatic Prostatic Acid Phosphatase in Clinically Localized Prostatic Cancer 105
- Prognostic Factors in Localized Prostatic Carcinoma 106
- Pelvic Lymph Node Metastasis from Prostatic Cancer : Significance of Disease Extent 107
- Treatment Implication in Patients with Extensive Stage C Carcinoma of the Prostate 108
- Early Detection of Prostate Cancer by Routine Screening 109
- Premalignant Lesions of the Prostate 110
- A Literature Review of Local Recurrence after Definitive Treatment of Carcinoma of the Prostate (CAP) 111
- Leukocytic Subset Alterations in Prostatic Cancer Patients 112
- Further Observations on Prostatic Cancer and Lymph Node Metastases 113
- Etidronate for the Relief of Metastatic Bone Pain 114
- Primary Adult Sarcomas 115
- Adult Sarcomas of the Prostate 116
